

## INDEX TO VOLUME 130 (B)

- Anniversary Address (Dale), 227.  
Anthocyanins (Beale, Price and Sturgess), 113.
- Bacteria, nuclear apparatus (Robinow), 299.  
Badger, G. M., Elson, L. A., Haddow, A., Hewett, C. L. & Robinson, A. M.  
The inhibition of growth by chemical compounds, 255.  
Beale, G. H., Price, J. R. & Sturgess, V. C. A survey of anthocyanins. VII. The  
natural selection of flower colour, 113.  
Bedford, Duke of & Marshall, F. H. A. On the incidence of the breeding season  
in mammals after transference to a new latitude, 396.  
Brambell, F. W. R. Intra-uterine mortality of the wild rabbit, *Oryctolagus*  
*cuniculus* (L), 462.  
Briggs, G. E. Photosynthesis in intermittent illumination, 24.  
Broda, E. E. & Goodeve, C. F. The behaviour of visual purple at low temperature,  
217.  
Bryophyta, dehiscence and dispersal (Muggoch & Walton), 448.
- Callan, H. G. Heterochromatin in *Triton*, 324.  
Campbell, N. R. & Chattaway, F. W. Molecular structure in relation to oestro-  
genic activity: polynuclear analogues of  $\gamma$ : $\delta$ -di-(4-hydroxyphenyl)-*n*-  
hexane ('hexoestrol'), 435.  
Chattaway, F. W. *See* Campbell & Chattaway.  
Collenchyma cells, fine structure in *Heracleum* (Majumdar & Preston), 201.  
Croonian Lecture (Topley), 337.
- Dale, Sir Henry. Anniversary Address, 227.  
Darlington, C. D. & Thomas, P. T. Morbid mitosis and the activity of inert  
chromosomes in *Sorghum*, 127.  
*Drosophila* mutants, resistance to desiccation (Kalmus), 185.  
*Drosophila*, relation between nutrition and the gene Antennaless (Gordon &  
Sang), 151.
- Elson, L. A. *See* Badger & others.  
Epidemics, biology (Topley), 337.
- Frog skin, electrical polarization by direct currents (Gatty), 83.
- Gatty, O. The electrical polarization of frog skin by direct currents, 83.  
Goodeve, C. F., Lythgoe, R. J. & Schneider, E. E. The photosensitivity of visual  
purple solutions and the scotopic sensitivity of the eye in ultra-violet, 380.  
Goodeve, C. F. *See also* Broda & Goodeve.  
Gordon, C. & Sang, J. H. The relation between nutrition and exhibition of the  
gene Antennaless (*Drosophila melanogaster*), 151.  
Growth, inhibition by chemical compounds (Badger & others), 255.
- Haddow, A. *See* Badger & others.  
Hammond, J. & Wodzicki, K. Anatomical and histological changes during the  
oestrous cycle in the mare, 1.  
Haptenes, effect on reaction between antigens and antibodies (Woolf), 70.  
Heterochromatin in *Triton* (Callan), 324.  
Hewett, C. L. *See* Badger & others.

- Hexoestrol, molecular structure (Campbell & Chattaway), 435.
- Hopkins, Sir Frederick Gowland. A contribution to the chemistry of pterins, 359.
- Inhibition of growth by chemical compounds (Badger, Elson, Haddow, Hewett & Robinson), 255.
- Intra-uterine mortality of the wild rabbit (Brambell), 462.
- Kalmus, H. The resistance to desiccation of *Drosophila* mutants affecting body colour, 185.
- Lythgoe, R. J. *See* Goodeve, Lythgoe & Schneider.
- Majumdar, G. P. & Preston, R. D. The fine structure of collenchyma cells in *Heracleum Sphondylium* L., 201.
- Marshall, F. H. A. *See* Bedford & Marshall.
- Morbid mitosis and inert chromosomes in *Sorghum* (Darlington & Thomas), 127.
- Muggoch, H. & Walton, J. On the dehiscence of the antheridium and the part played by surface tension in the dispersal of spermatocytes in Bryophyta, 448.
- Nicol, H. & Thornton, H. G. Competition between related strains of nodule bacteria and its influence on infection of the legume host, 32.
- Nodule bacteria, competition between related strains (Nicol & Thornton), 32.
- Nuclear apparatus of bacteria (Robinow), 299.
- Oestrous cycle in the mare (Hammond & Wodzicki), 1.
- Penman, H. L. Theory of porometers used in the study of stomatal movements in leaves, 416.
- Phloem fibres, fine structure (Preston), 103.
- Photosensitivity of visual purple solutions and scotopic sensitivity (Goodeve, Lythgoe & Schneider), 380.
- Photosynthesis in intermittent illumination (Briggs), 24.
- Pneumococcus antiserum type II and a glucuronide azo-protein (Woolf), 60.
- Porometers, used in the study of stomatal movements in leaves (Penman), 416.
- Preston, R. D. The fine structure of phloem fibres. II. Untreated and swollen jute, 103.
- Preston, R. D. *See also* Majumdar & Preston.
- Price, J. R. *See* Beale, Price & Sturgess.
- Pterins, chemistry of (Hopkins), 359.
- Resistance to desiccation of *Drosophila* mutants (Kalmus), 185.
- Robinow, C. F. A study of the nuclear apparatus of bacteria, 299.
- Robinson, A. M. *See* Badger & others.
- Sang, J. H. *See* Gordon & Sang.
- Schneider, E. E. *See* Goodeve, Lythgoe & Schneider.
- Selection, influence on preferendum of a chalcid (Wilkes), 400.
- Sorghum*, morbid mitosis and inert chromosomes (Darlington & Thomas), 127.
- Sturgess, V. C. *See* Beale, Price & Sturgess.
- Thomas, P. T. *See* Darlington & Thomas.
- Thornton, H. G. *See* Nicol & Thornton.

Topley, W. W. C. (Croonian Lecture.) The biology of epidemics, 337.  
*Triton*, heterochromatin (Callan), 324.

Visual purple, behaviour at low temperature (Broda & Goodeve), 217.  
Visual purple, photosensitivity (Goodeve, Lythgoe & Schneider), 380.

Walton, J. *See* Muggoch & Walton.

Wilkes, A. The influence of selection on the preferendum of a chalcid (*Microplectron fuscipennis* Zett.) and its significance in the biological control of an insect pest, 400.

Wodzicki, K. *See* Hammond & Wodzicki.

Woolf, B. Quantitative studies on the effect of haptenes on the reaction between antigens and antibodies, 70.

Woolf, B. The reaction between type II pneumococcus antiserum and a glucuronide azo-protein, 60.

END OF THE ONE HUNDRED AND THIRTIETH VOLUME (SERIES B)
