

<b>Electric organ discharge patterns during group hunting by a mormyrid fish</b> M. E. Arnegard & B. A. Carlson	1305
<b>Aposematism and crypsis combined as a result of distance dependence: functional versatility of the colour pattern in the swallowtail butterfly larva</b> B. S. Tullberg, S. Merilaita & C. Wiklund	1315
<b>How optimal life history changes with the community size-spectrum</b> U. H. Thygesen, K. D. Farnsworth, K. H. Andersen & J. E. Beyer	1323
<b>Genomic compatibility occurs over a wide range of parental genetic similarity in an outcrossing plant</b> Y. Willi & J. Van Buskirk	1333
<b>Direct assessment of queen quality and lack of worker suppression in a paper wasp</b> J. Liebig, T. Monnin & S. Turillazzi	1339
<b>Nesting fidelity and molecular evidence for natal homing in the freshwater turtle, <i>Graptemys kohnii</i></b> S. Freedberg, M. A. Ewert, B. J. Ridenhour, M. Neiman & C. E. Nelson	1345
<b>Changes in maternal investment in eggs can affect population dynamics</b> T. G. Benton, S. J. Plaistow, A. P. Beckerman, C. T. Lapsley & S. Littlejohns	1351
<b>Niches, rather than neutrality, structure a grassland pioneer guild</b> L. A. Turnbull, L. Manley & M. Rees	1357
<b>Prioritizing species conservation: does the Cape Verde kite exist?</b> J. A. Johnson, R. T. Watson & D. P. Mindell	1365
<b>Reputation and the evolution of cooperation in sizable groups</b> S. Suzuki & E. Akiyama	1373
<b>Higher-level mechanisms detect facial symmetry</b> G. Rhodes, M. Peters, K. Lee, M. C. Morrone & D. Burr	1379
<b>The effect of a bacteriophage on diversification of the opportunistic bacterial pathogen, <i>Pseudomonas aeruginosa</i></b> M. A. Brockhurst, A. Buckling & P. B. Rainey	1385
<b>Unparallel diversification in bacterial microcosms</b> J. Tyerman, N. Havard, G. Saxer, M. Travisano & M. Doebeli	1393
<b>Aromatase pathway mediates sex change in each direction</b> F. J. Kroon, P. L. Munday, D. A. Westcott, J.-P. A. Hobbs & N. R. Liley	1399
<b>Disease contact tracing in random and clustered networks</b> I. Z. Kiss, D. M. Green & R. R. Kao	1407

Founded in 1660, the Royal Society is the independent scientific academy of the UK, dedicated to promoting excellence in science

Registered Charity No 207043
