Review. The social nature of primate cognition
L. Barrett & P. Henzi

Costly but worthless gifts facilitate courtship
P. D. Sozou & R. M. Seymour

Prioritizing multiple-use landscapes for conservation: methods for large multi-species planning problems
A. Moilanen, A. M. A. Franco, R. I. Early, R. Fox, B. Wintle & C. D. Thomas

Environmental-induced acquisition of nuptial plumage expression: a role of denaturation of feather carotenoproteins?
G. Blanco, O. Frías, J. Garrido-Fernández & D. Hornero-Méndez

Markedly different gene expression in wheat grown with organic or inorganic fertilizer

Persistence of seeds from crops of conventional and herbicide tolerant oilseed rape (Brassica napus)

A poor start in life negatively affects dominance status in adulthood independent of body size in green swordtails Xiphophorus Helleri
N. J. Royle, J. Lindstrom & N. B. Metcalfe

Social learning of floral odours inside the honeybee hive
W. M. Farina, C. Grüter & P. C. Díaz

Prey attack and predators defend: counterattacking prey trigger parental care in predators
S. Magalhães, A. Janssen, M. Montserrat & M. W. Sabelis

Sex as a response to oxidative stress: stress genes co-opted for sex
A. M. Nedelcu

Death rates reflect accumulating brain damage in arthropods
D. B. Fonseca, C. L. Brancato, A. E. Prior, P. M. J. Shelton & M. R. J. Sheehy

The effect of disease life history on the evolutionary emergence of novel pathogens
J. B. André & T. Day

Rapidly shifting environmental baselines among fishers of the Gulf of California
A. Sanz-Arroyo, C. M. Roberts, J. Torre, M. Carriño-Ólivera & R. R. Enriquez-Andrade

Experimental allometry: effect of size manipulation on metabolic rate of colonial ascidians
F. Nakaya, Y. Saito & T. Motokawa

Prenatal androgen exposure modulates cellular and humoral immune function of black-headed gull chicks
W. Müller, T. G. G. Grootenhuis, A. Kasprzik, C. Dijkstra, R. V. Alatalo & H. Sittari

Influence of fibril taper on the function of collagen to reinforce extracellular matrix
K. L. Goh, J. R. Meakin, R. M. Aspden & D. W. I. Hukins
