Fossilized soft tissues in a Silurian platyceratid gastropod 1039
M. D. Sutton, D. E. G. Briggs, D. J. Siveter & D. J. Siveter

Extreme convergence in the body plans of an early suchian (Archosauria) and ornithomimid dinosaurs (Theropoda) 1045
S. J. Nesbitt & M. A. Norell

Are subspecies useful in evolutionary and conservation biology? 1049
A. B. Phillimore & I. P. F. Owens

Evolution of anti-predator traits in response to a flexible targeting strategy by predators 1055
A. L. Jackson, G. Beauchamp, M. Broom & G. D. Ruxton

The evolution of parasite manipulation of host dispersal 1063
S. Lion, M. van Baalen & W. G. Wilson

Bumble-bee foragers infected by a gut parasite have an impaired ability to utilize floral information 1073
R. J. Gegear, M. C. Otterstatter & J. D. Thomson

Symbiont modifies host life-history traits that affect gene flow 1079
T. E. Leonardo & E. B. Monoud

Ecological and genetic impact of Atlantic cod larval drift in the Skagerrak 1085
N. Chr. Stenseth, P. E. Jorde, K.-S. Chan, E. Hansen, H. Knutsen, C. André, M. D. Søgen & K. Leive

Experimental evidence that corticosterone affects offspring sex ratios in quail 1093
T. W. Pike & M. Petrie

Small body size in an insect shifts development, prior to adult ecdision, towards early reproduction 1099
A. D. Thorne, J. J. Pexton, C. Dytham & P. J. Mayhew

Female freshwater crayfish adjust egg and clutch size in relation to multiple male traits 1105
P. Galeotti, D. Rubolini, C. Fosq, D. Ghia, F. A. Nardi, F. Gerardi & M. Facola

Complex Mhc-based mate choice in a wild passerine 1111
C. Bonneaud, O. Chastel, P. Federici, H. Westerdahl & G. Sorci

Out of Gondwanaland; the evolutionary history of cooperative breeding and social behaviour among crows, magpies, jays and allies 1117
J. Ekman & P. G. P. Ericson

Design complexity and strength of laterality are correlated in New Caledonian crows’ pandanus tool manufacture 1127
G. R. Hunt, M. C. Corballis & R. D. Gray

Evidence for a Mullerian mimetic radiation in Asian pitvipers 1135
K. L. Sanders, A. Malhotra & R. S. Thorpe

How much evolutionary history in a 10 x 10 m plot? 1143
S. Proches, J. R. U. Wilson & R. M. Cowling

Soil moisture mediates association between the winter North Atlantic Oscillation and summer growth in the Park Grass Experiment 1149
P. S. Kettlewell, J. Easey, D. B. Stephenson & P. R. Poulton

Automated biometrics-based personal identification of the Hunter-Schreger bands of dental enamel 1155
L. L. Ramenzoni & S. R. P. Line

The greater than twofold cost of integration for retroviruses 1159
D. C. Krakauer & A. Sasaki

Quantifying lymphocyte kinetics in vivo using carboxyfluorescein diacetate succinimidyl ester (CFSE) 1165
B. Asquith, C. Debacq, A. Florins, N. Gillet, T. Sanchez-Alcaraz, A. Mosley & L. Willems
