Review. Future directions in behavioural syndromes research
A. M. Bell 755

Big-brained birds survive better in nature
D. Sol, T. Székely, A. Liker & L. Lefebvre 763

Can artificially selected phenotypes influence a component of field fitness? Thermal selection and fly performance under thermal extremes
T. N. Kristensen, V. Loeschcke & A. A. Hoffmann 771

Surviving with low genetic diversity: the case of albatrosses
E. Milne, H. Weimerskirch, P. Duchene & L. Bernatchez 779

Warm water occupancy by North Sea cod
F. Neat & D. Righton 789

Food plant diversity as broad-scale determinant of avian frugivore richness
W. D. Kissling, C. Ražbek & K. Böhning-Gaese 799

Stability of genetic polymorphism in host-parasite interactions
A. Teller & J. K. M. Brown 809

Testosterone and oxidative stress: the oxidation handicap hypothesis
C. Alonso-Alvarez, S. Bertrand, O. Chastel & G. Sorci 819

Individuals from different-looking animal species may group together to confuse shared predators: simulations with artificial neural networks
C. R. Toth, A. L. Jackson & G. D. Ruxton 827

What is the best control strategy for multiple infectious disease outbreaks?
A. Handel, I. M. Longini Jr & R. Antia 833

Intraspecific competition drives increased resource use diversity within a natural population
R. Svendbæk & D. I. Bolnick 839

The use of chemical and visual cues in female choice in the butterfly Bicyclus anynana
K. Costanzo & A. Monteiro 845

Social competitiveness associated with rapid fluctuations in sperm quality in male fowl
T. Pizzari, C. K. Cornwell & D. P. Froman 853

Natural selection acts on Atlantic salmon major histocompatibility (MH) variability in the wild

From selection to complementarity: shifts in the causes of biodiversity-productivity relationships in a long-term biodiversity experiment

Communication using eye roll reflective signalling

Maternal nutrition affects reproductive output and sex allocation in a lizard with environmental sex determination
D. A. Warnock, M. B. Lovem & R. Shine 883

Did the perils of abdominal obesity affect depiction of feminine beauty in the sixteenth to eighteenth century British literature? Exploring the health and beauty link
D. Singh, P. Renz & A. Singh 891

Splitting out information. Trigono bees deposit saliva to signal resource locations

Social transmission of face preferences among humans
B. C. Jones, L. M. Delbrue, A. C. Little, R. P. Burton & D. R. Feinberg 899

ISSN 0962-8452
volume 274
number 1611
pages 755–903
