

Extreme environmental variation sharpens selection that drives the evolution of a mutualism A. M. Siepielski & C. W. Benkman	1799
Evolution of an avian pigmentation gene correlates with a measure of sexual selection N. J. Nadeau, T. Burke & N. I. Mundy	1807
Participation costs dismiss the advantage of heterogeneous networks in evolution of cooperation N. Masuda	1815
A new Chinese specimen indicates that 'protofeathers' in the Early Cretaceous theropod dinosaur <i>Sinosauropteryx</i> are degraded collagen fibres T. Lingham-Soliar, A. Feduccia & X. Wang	1823
Floral reward production is timed by an insect pollinator M. J. Boisvert, A. J. Veal & D. F. Sherry	1831
Genetically resistant sheep avoid parasites to a greater extent than do susceptible sheep M. R. Hutchings, K. J. Knowler, R. McAnulty & J. C. McEwan	1839
Hunting to extinction: biology and regional economy influence extinction risk and the impact of hunting in artiodactyls S. A. Price & J. L. Gittleman	1845
Generalization of learned predator recognition: an experimental test and framework for future studies M. C. O. Ferrari, A. Gonzalo, F. Messier & D. P. Chivers	1853
Cooperation is less likely to evolve in a finite population with a highly skewed distribution of family size S. Lessard	1861
Do constructional constraints influence cichlid craniofacial diversification? C. D. Hulsey, M. C. Mims & J. T. Streebman	1867
Phenotypic determinants of individual fitness in female fur seals: larger is better G. Beauplet & C. Guinet	1877
Shell bone histology indicates terrestrial palaeoecology of basal turtles T. M. Scheyer & P. M. Sander	1885
Female extrapair mate choice in a cooperative breeder: trading sex for help and increasing offspring heterozygosity D. R. Rubenstein	1895
Context dependence in the coevolution of plant and rhizobial mutualists K. D. Heath & P. Tiffin	1905
Rhesus monkeys correctly read the goal-relevant gestures of a human agent M. D. Hauser, D. Glynn & J. Wood	1913
Addendum. An addendum to 'Songbird migration across the Sahara: the non-stop hypothesis rejected!' H. Schmaljohann, F. Liechti & B. Bruderer	1919

Founded in 1660, the Royal Society is the independent scientific academy of the UK, dedicated to promoting excellence in science
