Human cerebral response to animal affective vocalizations

P. Belin, S. Fecteau, I. Charvet, N. Nicastro, M. D. Hauser & J. L. Armony

Sexual selection mediated by the thermoregulatory effects of male colour pattern in the ambush bug Phymata americana

D. Punzalan, F. H. Roed & L. Rowe

The population genetics of mimetic diversity in Heliconius butterflies

M. R. Kronforst & L. E. Gilbert

The 1918–1919 influenza pandemic in England and Wales: spatial patterns in transmissibility and mortality impact

C. Chowell, L. M. A. Bettencourt, N. Johnson, W. J. Alonso & C. Viboud

Seasonality, cohort-dependence and the development of immunity in a natural host–nematode system

S. J. Cornell, O. N. Bjornstad, I. M. Cattadori, B. Boag & P. J. Hudson

Intrasexual competition among females and the stabilization of a conspicuous colour polymorphism in a Lake Victoria cichlid fish

P. D. Dijkstra, O. Seehausen & T. G. G. Groothuis

Dispersal without errors: symmetrical ears tune into the right frequency for survival

M. Gagliano, M. Depczynski, S. D. Simpson & J. A. Y. Moore

Effect of dispersal and nutrient availability on the competitive ability of toxin-producing yeast

Dispersing brush mice prefer habitat like home

K. E. Mabry & J. A. Stamps

Adaptive developmental plasticity in growing nestlings: sibling competition induces differential gape growth

D. Gil, E. Balmer, P. Cells & I. López-Rull

Compatibility counts: MHC-associated mate choice in a wild promiscuous primate

N. Schwinsow, M. Eberle & S. Sommer

Impact of plant nutrients on the relationship between a herbivorous insect and its symbiotic bacteria

S. M. Chandler, T. L. Wilkinson & A. E. Douglas

Female Barbary macaque (Macaca sylvanus) copulation calls do not reveal the fertile phase but influence mating outcome

D. Pfefferle, K. Brauch, M. Heistermann, J. K. Hodges & J. Fischer

Diet variation in a dynamic sexual display and its association with female mate-searching behaviour

A. Jacot, H. Scheiber, B. Holzer, O. Oblt & M. W. C. Brinkhof

More ‘altruistic’ punishment in larger societies

F. W. Marlowe & J. C. Berbesque

Corrigendum. Understanding height-structured competition in forests: is there an R* for light?

T. P. Adams, D. W. Purves & S. W. Pacala
