Review. Tomographic techniques for the study of exceptionally preserved fossils

M. D. Sutton

Protein robustness promotes evolutionary innovations on large evolutionary time-scales

E. Ferrada & A. Wagner

The mechanism of sex ratio adjustment in a pollinating fig wasp

S. Raja, N. Suleman, S. G. Compton & J. C. Moore

Host manipulation by parasites in the world of dead-end predators: adaptation to enhance transmission?

O. Seppälä, E. T. Valtonen & D. P. Benesh

Mimetic butterflies support Wallace’s model of sexual dimorphism

K. Kurie

Availability of prey resources drives evolution of predator–prey interaction

V.-P. Friman, T. Hiltunen, J. Laakso & V. Kaitala

The costs of risky male behaviour: sex differences in seasonal survival in a small sexually monomorphic primate

C. Kraus, M. Eberle & P. M. Kappeler

Perceptual uncertainty and line-call challenges in professional tennis

G. Mather

Heart rate modulation in bystanding geese watching social and non-social events

C. A. F. Wascher, T. B. Scheiber & K. Kotrschal

You are what your mother eats: evidence for maternal preconception diet influencing foetal sex in humans

F. Mathews, P. J. Johnson & A. Neil

Social transmission of nectar-robbing behaviour in bumble-bees

E. Leadbeater & L. Chittka

Feeding, fecundity and lifespan in female Drosophila melanogaster

A. I. Barnes, S. Waggy, J. M. Boos, L. Partidge & T. Chapman

Pheromones enhance somatosensory processing in newt brains through a vasotocin-dependent mechanism

Phylogeny and geography predict pathogen community similarity in wild primates and humans

T. J. Davies & A. B. Pedersen
