The impact of dietary restriction, intermittent feeding and compensatory growth on reproductive investment and lifespan in a short-lived fish
C. L. W. Inness & N. B. Metcalfe

Subtle cues of predation risk: starlings respond to a predator’s direction of eye-gaze

Hummingbird responses to gender-biased nectar production: are nectar biases maintained by natural or sexual selection?
J. E. Carlson

Encoding choosiness: female attraction requires prior physical contact with individual male scents in mice
S. A. Ramm, S. A. Cheetham & J. L. Hurst

Viability of brown trout embryos positively linked to melanin-based but negatively to carotenoid-based colours of their fathers
C. Wedekind, A. Jacob, C. Evansso, S. Naefud & R. Müller

Variation in contributions to teaching by meerkats
A. Thornton

Poor condition and infection: a vicious circle in natural populations
P. M. Beldomenico, S. Teller, S. Geberi, L. Lukomski, M. Bennett & M. Begon

Local resource competition and local resource enhancement shape primate birth sex ratios
J. B. Silk & G. R. Brown

Ocean acidification may increase calcification rates, but at a cost
H. L. Wood, J. I. Spicer & S. Widdicombe

Community extinction patterns in coloured environments
L. Ruokolainen & M. S. Fowler

Environment-contingent sexual selection in a colour polymorphic fish

Multi-level trophic cascades in a heavily exploited open marine ecosystem
M. Casini, J. Lövgren, J. Hjelm, M. Cardinale, J. C. Molinero & G. Kornilovs

Global patterns in marine dispersal estimates: the influence of geography, taxonomic category and life history
I. R. Bradbury, B. Laurel, P. V. R. Snelgrove, P. Bentzen & S. E. Campana

Can prey exhibit threat-sensitive generalization of predator recognition? Extending the Predator Recognition Continuum Hypothesis
M. C. O. Ferrari, F. Messier & D. P. Chivers

Cuckoo–hawk mimicry? An experimental test
N. B. Davies & J. A. Welbergen
