### Review articles

- Reactive oxygen species as universal constraints in life-history evolution
  - D. K. Dowling & L. W. Simmons
  - Pages 1737–1747

### Research articles

- Looking on the bright side: biased attention and the human serotonin transporter gene
  - E. Fox, A. Ridgewell & C. Ashwin
  - Pages 1747–1753

- Ecological selection pressures for C₄ photosynthesis in the grasses
  - C. P. Osborne & R. P. Freckleton
  - Pages 1753–1761

- Angiosperm leaf vein evolution was physiologically and environmentally transformative
  - C. K. Boyce, T. J. Brodribb, T. S. Feild & M. A. Zwieniecki
  - Pages 1761–1769

- Distinguishing epidemic waves from disease spillover in a wildlife population
  - M. E. Craft, E. Volz, C. Packer & L. A. Meyers
  - Pages 1775–1783

- Foam nest components of the túngara frog: a cocktail of proteins conferring physical and biological resilience
  - R. I. Fleming, C. D. Mackenzie, A. Cooper & M. W. Kennedy
  - Pages 1787–1795

- Where is the light? Bayesian perceptual priors for lighting direction
  - J. V. Storey, I. S. Kerfoot & J. Porcelli
  - Pages 1795–1803

- Collimation of a freshwater herbivore by steroids and polyunsaturated fatty acids
  - D. Martin-Creuzburg, E. Sperfeld & A. Wacker
  - Pages 1805–1811

- A new long-necked ‘saurischian–mimic’ stegosaurus and the evolution of the plated dinosaurs
  - O. Mateus, S. C. R. Maidment & N. A. Christiansen
  - Pages 1815–1823

- Compensatory mutations are repeatable and clustered within proteins
  - D. R. Davis, A. F. Y. Poon & M. C. Whitlock
  - Pages 1825–1831

- Network-based diffusion analysis: a new method for detecting social learning
  - M. Eisen & C. L. Nunn
  - Pages 1833–1841

- We age because we grow
  - H. S. Kaplan & A. J. Robson
  - Pages 1845–1853

- Birth season glucocorticoids are related to the presence of infants in silka (Propithecus verreauxi)
  - D. K. Brockman, A. K. Cobden & P. L. Whitten
  - Pages 1855–1861

- Inducible defences as key adaptations for the successful invasion of *Daphnia lumholtzi* in North America?
  - K. Engel & R. Tollrian
  - Pages 1865–1871

- Female mate choice across spatial scales: influence of lek and male attributes on mating success of blue-crowned manakins
  - Pages 1873–1881

- Temperature, but not pH, compromises sea urchin fertilization and early development under near-future climate change scenarios
  - M. Byrne, M. Ho, P. Selvakumaraswamy, H. D. Nguyen, S. A. Dong-jain & P. R. Davis
  - Pages 1885–1891

- Can fertility signals lead to quality signals? Insights from the evolution of primate sexual swellings
  - Pages 1895–1901

- Predation risk as a driving force for phenotypic assortment: a cross-population comparison
  - D. P. Croft, S. K. Darden & G. D. Ruxton
  - Pages 1903–1911

- Concealed by conspicuousness: disruptive prey markings and backgrounds
  - M. Dimitrova, N. Stobbe, H. M. Schaefer & S. Merilaita
  - Pages 1915–1921

- Trade-offs between activity and thermoregulation in a small carnivore, the least weasel *Mustela nivalis*
  - R. Zub, P. A. Szafałowska, M. Konarzewski, P. Reimann & J. R. Speakman
  - Pages 1925–1931

- Poor horse traders: large mammals trade survival for reproduction during the process of feralization
  - S. Grange, P. Duncan & J. M. Gallard
  - Pages 1933–1939

- Trade-offs between activity and thermoregulation in a small carnivore, the least weasel *Mustela nivalis*
  - R. Zub, P. A. Szafałowska, M. Konarzewski, P. Reimann & J. R. Speakman
  - Pages 1935–1941
