Contents

no. 1654, 7 January 2009

Editorial

Editorial: Proceedings B – the next phase
By M. Hassell 1

Review articles

Three-dimensional images of choanoflagellate loricae
By B. S. C. Leadbeater, Q. B. Yu, J. Kent and D. J. Stekel 3

Research articles

A simple and general explanation for the evolution of altruism
By J. A. Fletcher and M. Doebeli 13

Space versus phylogeny: disentangling phylogenetic and spatial signals in comparative data
By R. P. Freckleton and W. Jetz 21

The evolution of superstitious and superstition-like behaviour
By K. R. Foster and H. Kokko 31

Assessment of the role of sutures in a lizard skull: a computer modelling study
By M. Moazen, N. Curtis, P. O'Higgins, M. E. H. Jones, S. E. Evans and M. J. Fagan 39

Human-related processes drive the richness of exotic birds in Europe
By F. Chiron, S. Shirley and S. Kark 47

Genome size and wing parameters in passerine birds

High variability in patterns of population decline: the importance of local processes in species extinctions
By G. Cowlishaw, R. A. Pettifor and N. J. B. Isaac 63

An age-structured model to evaluate the potential of novel malaria-control interventions: a case study of fungal biopesticide sprays
By P. A. Hancock, M. B. Thomas and H. C. J. Godfray 71

Survival and recovery of Phaeocystis antarctica (Prymnesiophyceae) from prolonged darkness and freezing
By K. W. Tang, W. O. Smith Jr, A. R. Shields and D. T. Elliott 81

Facialmetric similarities mediate mate choice: sexual imprinting on opposite-sex parents
By T. Bereczkei, G. Hegedus and G. Hajnal 91

Different functions for homologous serotonergic interneurons and serotonin in species-specific rhythmic behaviours
By J. M. Newcomb and P. S. Katz 99

Trophic and individual efficiencies of size-structured communities
By K. H. Andersen, J. E. Beyer and P. Lundberg 109

Extreme sequential polyandry insures against nest failure in a frog
By P. G. Byrne and J. S. Keogh 115

Autumn leaves seen through herbivore eyes
By T. F. Döring, M. Archetti and J. Hardie 121

Experimental evidence for paternal effects on offspring growth rate in Arctic charr (Salvelinus alpinus)
By E. M. Eilertsen, B.-J. Bårdsen, S. Liljedal, G. Rudolfsen and I. Folstad 129

Aphid aerial density profiles are consistent with turbulent advection amplifying flight behaviours: abandoning the epithet ‘passive’
By A. M. Reynolds and D. R. Reynolds 137

Strain-specific priming of resistance in the red flour beetle, Tribolium castaneum
By O. Roth, B. M. Sadd, P. Schmid-Hempel and J. Kurtz 145

Testosterone responses to competition in men are related to facial masculinity
By N. Pound, I. S. Penton-Voak and A. K. Surridge 153

Social fishes and single mothers: brain evolution in African cichlids
By A. Gonzalez-Voyer, S. Winberg and N. Kolm 161

Carotenoid-based colour of acanthocephalan cystacanths plays no role in host manipulation
By N. Kaldonski, M.-J. Perrot-Minnot, R. Dodet, G. Martinaud and F. Cézilly 169

Several deep-sea mussels and their associated symbionts are able to live both on wood and on whale falls
By J. Lorion, S. Duperron, O. Gros, C. Cruaud and S. Samadi 177

Fine-scale cospeciation between Brachycaudus and Buchnera aphidicola: bacterial genome helps define species and evolutionary relationships in aphids
By E. Jousselin, Y. Desseives and A. Coeur d’acier 187
Coral bleaching and disease should not be underestimated as causes of Caribbean coral reef decline
By C. Rogers

Degradation of Caribbean coral reefs: focusing on proximal rather than ultimate drivers. Reply to Rogers
By C. Mora

Of mice and (Viking?) men: phylogeography of British and Irish house mice
By J. B. Searle, C. S. Jones, I. Gündüz, M. Scascitelli, E. P. Jones, J. S. Herman, R. V. Rambau, L. R. Noble, R. J. Berry, M. D. Giménez and F. Jóhannesdóttir

The diverse origins of New Zealand house mice
By J. B. Searle, P. M. Jamieson, I. Gündüz, M. I. Stevens, E. P. Jones, C. E. C. Gemmill and C. M. King

Incomplete reproductive isolation following host shift in brood parasitic indigobirds
By C. N. Balakrishnan, K. M. Sefc and M. D. Sorenson

Are ecosystem services stabilized by differences among species? A test using crop pollination
By R. Winfree and C. Kremen

Inheritance and diversification of symbiotic trichonymphid flagellates from a common ancestor of termites and the cockroach Cryptocercus
By M. Ohkuma, S. Noda, Y. Hongoh, C. A. Nalepa and T. Inoue

Do New Caledonian crows solve physical problems through causal reasoning?

Pattern formation on the combs of honeybees: increasing fitness by coupling self-organization with templates
By B. R. Johnson

The hierarchy of directional interactions in visual motion processing
By W. Curran, C. W. G. Clifford and C. P. Benton

Global associations between terrestrial producer and vertebrate consumer diversity
By W. Jetz, H. Kreft, G. Ceballos and J. Mutke

Assessing visual requirements for social context-dependent activation of the songbird song system
By E. Hara, L. Kubikova, N. A. Hessler and E. D. Jarvis

A serial founder effect model for human settlement out of Africa
By O. Deshpande, S. Batzoglou, M. W. Feldman and L. L. Cavalli-Sforza

High dispersal potential has maintained long-term population stability in the North Atlantic copepod Calanus finmarchicus
By J. Provan, G. E. Beatty, S. L. Keating, C. A. Maggs and G. Savidge

When in doubt, chimpanzees rely on estimates of past reward amounts
By M. J. Beran, T. A. Evans and E. H. Harris

Evolutionary dynamics of collective action in N-person stag hunt dilemmas
By J. M. Pacheco, F. C. Santos, M. O. Souza and B. Skyrms

Constraining free riding in public goods games: designated solitary punishers can sustain human cooperation
By R. O’Gorman, J. Henrich and M. Van Vugt

Size-structured risk assessments govern Daphnia migration
By L.-A. Hansson and S. Hylander

Lifespan, lifetime reproductive performance and paternity loss of within-pair and extra-pair offspring in the coal tit Periparus ater
By T. Schmoll, F. M. Schurr, W. Winkel, J. T. Epplen and T. Lubjuhn

Testosterone and paternal care in East African foragers and pastoralists
By M. N. Muller, F. W. Marlowe, R. Bugumba and P. T. Ellison

Between-group competition and human cooperation
By M. Puurtinen and T. Mappes

Genomic evidence for a large-Z effect
By H. Ellegren

Bayesian coalescent inference of major human mitochondrial DNA haplogroup expansions in Africa
By Q. D. Atkinson, R. D. Gray and A. J. Drummond

Contrasted patterns of age-specific reproduction in long-lived seabirds
By M. Berman, J.-M. Gaillard and H. Weimerskirch

Male-derived cuticular hydrocarbons signal sperm competition intensity and affect ejaculate expenditure in crickets
By M. L. Thomas and L. W. Simmons
Review articles

Reproductive skew in female common marmosets: what can proximate mechanisms tell us about ultimate causes?
By W. Saltzman, L. J. Digby and D. H. Abbott 389

Research articles

Hippocampal volumes and neuron numbers increase along a gradient of environmental harshness: a large-scale comparison
By T. C. Roth II and V. V. Pravosudov 401

Origin, adaptive radiation and diversification of the Hawaiian lobeliads (Asterales: Campanulaceae)

Repeated independent evolution of obligate pollination mutualism in the Phyllanthae–Epicephala association
By A. Kawakita and M. Kato 417

Lake warming favours small-sized planktonic diatom species
By M. Winder, J. E. Reuter and S. G. Schladow 427

Vision and touch in relation to foraging and predator detection: insightful contrasts between a plover and a sandpiper
By G. R. Martin and T. Piersma 437

Extreme endurance flights by landbirds crossing the Pacific Ocean: ecological corridor rather than barrier?

Experimental evolution of a microbial predator’s ability to find prey
By K. L. Hillesland, G. J. Velicer and R. E. Lenski 459

Representing the UK’s cattle herd as static and dynamic networks
By M. C. Vernon and M. J. Keeling 469

Inferring malaria parasite population structure from serological networks
By C. O. Buckee, P. C. Bull and S. Gupta 477

When microbes and consumers determine the limiting nutrient of autotrophs: a theoretical analysis
By M. Cherif and M. Loreau 487

Juveniles exposed to embryonic corticosterone have enhanced flight performance

A thin-shelled reptile from the Late Triassic of North America and the origin of the turtle shell
By W. G. Joyce, S. G. Lucas, T. M. Scheyer, A. B. Heckert and A. P. Hunt 507

Either or neither, but not both: locating the effects of masked primes
By F. Schlaghecken, S. T. Klapp and E. A. Maylor 515

Human-mediated dispersal of seeds over long distances

Indirect genetic effects and the evolution of aggression in a vertebrate system
By A. J. Wilson, U. Gelin, M.-C. Perron and D. Rèle 533

Experimental evolution of a sexually selected display in yeast
By D. W. Rogers and D. Greig 543

Chemical disguise as particular caste of host ants in the ant inquiline parasite *Niphanda fusca* (Lepidoptera: Lycaenidae)
By M. K. Hojo, A. Wada-Katsumata, T. Akino, S. Yamaguchi, M. Ozaki and R. Yamaoka 551

Atlantic salmon eggs favour sperm in competition that have similar major histocompatibility alleles

Cheater genotypes in the parthenogenetic ant *Pristomyrmex punctatus*

Human adaptations for the visual assessment of strength and fighting ability from the body and face
By A. Sell, L. Cosmides, J. Tooby, D. Szyncer, C. von Rueden and M. Gurven 575

Migration strategy and divergent sexual selection on bird song
By S. A. Collins, S. R. de Kort, J. Pérez-Tris and J. L. Telleria 585

Seabird-driven shifts in Arctic pond ecosystems
no. 1657, 22 February 2009

Research articles

Evolutionary position of breviate amoebae and the primary eukaryote divergence
By M. A. Minge, J. D. Silberman, R. J. S. Orr, T. Cavalier-Smith, K. Shalchian-Tabrizi, F. Burki, Å. Skjæveland and K. S. Jakobsen 597

Evolution of trust and trustworthiness: social awareness favours personality differences
By J. M. McNamara, P. A. Stephens, S. R. X. Dall and A. I. Houston 605

A 2000km genetic wake yields evidence for northern glacial refugia and hybrid zone movement in a pair of songbirds
By M. Krosby and S. Rohwer 615

Spatial and temporal pattern for the dentition in the Australian lungfish revealed with sonic hedgehog expression profile
By M. M. Smith, M. Okabe and J. Joss 623

Insects had it first: surfactants as a defence against predators
By M. Rosta´s and K. Blassmann 633

DNA barcoding insect—host plant associations
By J. A. Jurado-Rivera, A. P. Vogler, C. A. M. Reid, E. Petitpierre and J. Gómez-Zurita 639

Infrared radiation from hot cones on cool conifers attracts seed-feeding insects

A new theory of MHC evolution: beyond selection on the immune genes
By C. van Oosterhout 657

Olfactory acuity in theropods: palaeobiological and evolutionary implications
By D. K. Zelenitsky, F. Therrien and Y. Kobayashi 667

Testing the island rule: primates as a case study
By J. J. Welch 675

Sprint and endurance power and ageing: an analysis of master athletic world records
By J. Rittweger, P. E. di Prampero, N. Maffulli and M. V. Narici 683

Interactions among co-infecting parasite species: a mechanism maintaining genetic variation in parasites?
By O. Seppälä, A. Karvonen, E. T. Valtonen and J. Jokela 691

Long-term reciprocation of grooming in wild West African chimpanzees
By C. M. Gomes, R. Mundry and C. Boesch 699

Compensatory investment in zebra finches: females lay larger eggs when paired to sexually unattractive males
By E. Bolund, H. Schielzeth and W. Forstmeier 707

The ocean is not deep enough: pressure tolerances during early ontogeny of the blue mussel Mytilus edulis
By N. C. Mestre, S. Thatje and P. A. Tyler 717

Converging migration routes of Eurasian hobbies Falco subbuteo crossing the African equatorial rain forest
By R. Strandberg, R. H. G. Klaassen, M. Hake, P. Olofsson and T. Alerstam 727

Mechanisms and evolution of hypoxia tolerance in fish
By M. Mandic, A. E. Todgham and J. G. Richards 735

Adaptive plasticity of mammalian sperm production in response to social experience
By S. A. Ramm and P. Stockley 745

Disruptive selection in a bimodal population of Darwin’s finches
By A. P. Hendry, S. K. Huber, L. F. De León, A. Herrel and J. Podos 753

Evidence for novel and specialized mycorrhizal parasitism: the orchid Gastrodia confusa gains carbon from saprotrophic Mycena
By Y. Ogura-Tsujita, G. Gebauer, T. Hashimoto, H. Umata and T. Yukawa 761

Recognition of other species’ aerial alarm calls: speaking the same language or learning another?
By R. D. Magrath, B. J. Pitcher and J. L. Gardner 769

The strength of a female mate preference increases with predation risk
By T. W. Kim, J. H. Christy, S. Dennenmoser and J. C. Choe 775

Outline and surface disruption in animal camouflage
By M. Stevens, I. S. Winney, A. Cantor and J. Graham 781

Social personality trait and fitness
By J. Cote, A. Dreiss and J. Clobert 787

Acoustic experience shapes female mate choice in field crickets
By N. W. Bailey and M. Zuk 787

Proc. R. Soc. B (2009)
Earthworm genomes, genes and proteins: the (re)discovery of Darwin’s worms
By S. R. Stürzenbaum, J. Andre, P. Kille and A. J. Morgan 789

Multiple origins of deep-sea Asellota (Crustacea: Isopoda) from shallow waters revealed by molecular data
By M. J. Raupach, C. Mayer, M. Malyutina and J.-W. Wägele 799

Distance from Africa, not climate, explains within-population phenotypic diversity in humans
By L. Betti, F. Balloux, W. Amos, T. Hanihara and A. Manica 809

Relict or colonizer? Extinction and range expansion of penguins in southern New Zealand
By S. Boessenkool, J. J. Austin, T. H. Worthy, P. Scofield, A. Cooper, P. J. Seddon and J. M. Waters 815

Periodic temperature-associated drought/flood drives locust plagues in China
By Z. Zhang, B. Cazelles, H. Tian, L. C. Stige, A. Bräuning and N. Chr. Stenseth 823

Haemoglobin polymorphisms affect the oxygen-binding properties in Atlantic cod populations
By Ø. Andersen, O. F. Wetten, M. C. De Rosa, C. Andre, C. C. Alinovi, M. Colafranceschi, O. Brix and A. Colosimo 833

Gourds afloat: a dated phylogeny reveals an Asian origin of the gourd family (Cucurbitaceae) and numerous oversea dispersal events
By H. Schaefer, C. Heibl and S. S. Renner 843

Echolocating bats emit a highly directional sonar sound beam in the field
By A. Surykke, S. B. Pedersen and L. Jakobsen 853

Wholes and subparts in visual processing of human agency
By P. Neri 861

Warning displays may function as honest signals of toxicity
By J. D. Blount, M. P. Speed, G. D. Ruxton and P. A. Stephens 871

A new stem turtle from the Middle Jurassic of Scotland: new insights into the evolution and palaeoecology of basal turtles
By J. Anquetin, P. M. Barrett, M. E. H. Jones, S. Moore-Fay and S. E. Evans 879

Marine mammals through time: when less is more in studying palaeodiversity
By F. G. Marx 887

Range-wide mtDNA phylogeography yields insights into the origins of Asian elephants
By T. N. C. Vidya, R. Sukumar and D. J. Melnick 893

On the relationship between farmland biodiversity and land-use intensity in Europe

A phenomenological model for the collective landing of bird flocks
By I. Daruka 911

Evidence for harvest-induced maternal influences on the reproductive rates of fish populations
By P. A. Venturelli, B. J. Shuter and C. A. Murphy 919

Lifetime reproductive success is maximized with optimal major histocompatibility complex diversity

Pollinator experience, neophobia and the evolution of flowering time
By J. Forrest and J. D. Thomson 935

Diversification trajectories and evolutionary life-history traits in early sharks and batoids
By J. Kriwet, W. Kiessling and S. Klug 945

The optimal coyness game
By J. M. McNamara, L. Fromhage, Z. Barta and A. I. Houston 953

No energetic cost of anthropogenic disturbance in a songbird
By I.-A. Bisson, L. K. Butler, T. J. Hayden, L. M. Romero and M. C. Wikelski 961

What does testosterone do for red deer males?
By A. F. Malo, E. R. S. Roldan, J. J. Garde, A. J. Soler, J. Vicente, C. Gortazar and M. Gomendio 971

A female songbird out-sings male conspecifics during simulated territorial intrusions
By A. E. Illes and L. Yunes-Jimenez 981

Symbiotic bacteria enable insect to use a nutritionally inadequate diet
By E. A. Gündüz and A. E. Douglas 987
no. 1659, 22 March 2009

Comments and invited replies

Problems detecting density-dependent diversification on phylogenies
By F. Bokma 993

Problems detecting density-dependent diversification on phylogenies: reply to Bokma
By D. L. Rabosky and I. J. Lovette 995

Research articles

Oscillations in continuous culture populations of Streptococcus pneumoniae: population dynamics and the evolution of clonal suicide
By O. E. Cornejo, D. E. Rozen, R. M. May and B. R. Levin 999

The relationship between social behaviour and habitat familiarity in African elephants (Loxodonta africana)
By N. Pinter-Wollman, L. A. Isbell and L. A. Hart 1009

An exceptionally well-preserved Eocene dolichopodid fly eye: function and evolutionary significance
By G. Tanaka, A. R. Parker, D. J. Siveter, H. Maeda and M. Furutani 1015

Divergent trends in anadromous salmonid populations in Norwegian and Scottish rivers

Effects of influenza A virus infection on migrating mallard ducks

Liparid and macrourid fishes of the hadal zone: in situ observations of activity and feeding behaviour

Mothers produce less aggressive sons with altered immunity when there is a threat of disease during pregnancy
By O. Curno, J. M. Behnke, A. G. McElligott, T. Reader and C. J. Barnard 1047

Extreme convergence in stick insect evolution: phylogenetic placement of the Lord Howe Island tree lobster
By T. R. Buckley, D. Attanayake and S. Bradler 1055

Cnidarian internal stinging mechanism
By A. Schlesinger, E. Zlotkin, E. Kramarsky-Winter and Y. Loya 1063

Oxygen hypothesis of polar gigantism not supported by performance of Antarctic pycnogonids in hypoxia
By H. A. Woods, A. L. Moran, C. P. Arango, L. Mullen and C. Shields 1069

Voice pitch alters mate-choice-relevant perception in hunter–gatherers
By C. L. Apicella and D. R. Feinberg 1077

Cryptic preference for MHC-dissimilar females in male red junglefowl, Gallus gallus
By M. A. F. Gillingham, D. S. Richardson, H. Lovlie, A. Moynihan, K. Worley and T. Pizzari 1083

Honest sexual signalling mediated by parasite and testosterone effects on oxidative balance
By F. Mougeot, J. Martinez-Padilla, L. M. I. Webster, J. D. Blount, L. Pérez-Rodrı´guez and S. B. Piertney 1093

A bizarre Cretaceous theropod dinosaur from Patagonia and the evolution of Gondwanan dromaeosaurs
By F. E. Novas, D. Pol, J. I. Canale, J. D. Porfiri and J. O. Calvo 1101

Sex-specific variation in the emphasis, inducibility and timing of the post-mating immune response in Drosophila melanogaster
By W. E. Winterhalter and K. M. Fedorka 1109

Major histocompatibility complex (MHC) heterozygote superiority to natural multi-parasite infections in the water vole (Arvicola terrestris)
By M. K. Oliver, S. Telfer and S. B. Piertney 1119

Survival costs of reproduction vary with age in North American red squirrels
By S. Descamps, S. Boutin, A. G. McAdam, D. Berteaux and J.-M. Gaillard 1129

Parasite manipulation of brain monoamines in California killifish (Fundulus parvipinnis) by the trematode Euhaplorchis californiensis
By J. C. Shaw, W. J. Korzan, R. E. Carpenter, A. M. Kuris, K. D. Lafferty, C. H. Summers and Ø. Øverli 1137

Food-density-dependent inefficiency in animals with a gut as a stabilizing mechanism in trophic dynamics
By K. J. Flynn 1147

Environmental heterogeneity, genotype-by-environment interactions and the reliability of sexual traits as indicators of mate quality
By A. D. Higginson and T. Reader 1153
Why are (the best) women so good at chess? Participation rates and gender differences in intellectual domains  
By M. Bilalić, K. Smallbone, P. McLeod and F. Gobet  
1161

When does optional participation allow the evolution of cooperation?  
By S. Mathew and R. Boyd  
1167

Sperm morphology and sperm velocity in passerine birds  
By S. Lüpold, S. Calhim, S. Immler and T. R. Birkhead  
1175

How much do genetic covariances alter the rate of adaptation?  
By A. F. Agrawal and J. R. Stinchcombe  
1183

Fatigue alters in vivo function within and between limb muscles during locomotion  
By T. E. Higham and A. A. Biewener  
1193

Retraction  
Facialmetric similarities mediate mate choice: sexual imprinting on opposite-sex parents  
By T. Bereczkei, G. Hegedus and G. Hajnal  
1199

no. 1660, 7 April 2009

Review articles  
The causes of mutation accumulation in mitochondrial genomes  
By M. Neiman and D. R. Taylor  
1201

Comments and invited replies  
Cereal-induced gender selection? Most likely a multiple testing false positive  
By S. S. Young, H. Bang and K. Oktay  
1211

The motion after-effect: local and global contributions to contrast sensitivity
By K. Nordström and D. C. O’Carroll

Scab formation and wound healing of plant tissue by soldier aphid
By M. Kutsukake, H. Shibao, K. Uematsu and T. Fukatsu

Mimicry, colour forms and spectral sensitivity of the bluestriped fangblenny, *Plagiotremus rhinorhynchos*

The double odyssey of Madagascan polystome flatworms leads to new insights on the origins of their amphibian hosts
By O. Verneau, L. H. Du Preez, V. Laurent, L. Raharivololoniaïaina, F. Glaw and M. Vences

Flat lizard female mimics use sexual deception in visual but not chemical signals
By M. J. Whiting, J. K. Webb and J. S. Keogh

No actual conflict over colony inheritance despite high potential conflict in the social wasp *Polistes dominulus*
By T. Monnin, A. Cini, V. Lecat, P. Féderici and C. Doums

Seasonal host dynamics drive the timing of recurrent epidemics in a wildlife population
By M. Begon, S. Telfer, M. J. Smith, S. Burthe, S. Paterson and X. Lambin

Can parasites drive population cycles in mountain hare?
By S. E. Townsend, S. Newey, S. J. Thirgood, L. Matthews and D. T. Haydon

Non-breeding season events influence sexual selection in a long-distance migratory bird

Environmental control of diatom community size structure varies across aquatic ecosystems
By Z. V. Finkel, C. J. Vaillancourt, A. J. Irwin, E. D. Reave and J. P. Smol

Orienting to threat: faster localization of fearful facial expressions and body postures revealed by saccadic eye movements
By R. L. Bannerman, M. Milders, B. de Gelder and A. Sahraie

Saccadic head rotations during walking in the stalk-eyed fly (*Cyrtodiopsida dalmanni*)
By G. Ribak, A. R. Egge and J. G. Swallow

The scleritome of *Paterimitra*: an Early Cambrian stem group brachiopod from South Australia

Community diversity reduces *Schistosoma mansoni* transmission, host pathology and human infection risk
By P. T. J. Johnson, P. J. Lund, R. B. Hartson and T. P. Yoshino

Individual differences in distance perception
By R. E. Jackson

The evolution of primate visual self-recognition: evidence of absence in lesser apes
By T. Sudendorf and E. Collier-Baker

Telomere dynamics rather than age predict life expectancy in the wild
By P. Bize, F. Criscuolo, N. B. Metcalfe, L. Nasir and P. Monaghan

Genetic modulation of energy metabolism in birds through mitochondrial function
By B. I. Tieleman, M. A. Versteeg, A. Pries, B. Helm, N. J. Dingemanse, H. L. Gibbs and J. B. Williams

Influence of major histocompatibility complex genotype on mating success in a free-ranging reptile population
By H. C. Miller, J. A. Moore, N. J. Nelson and C. H. Daugherty

Plastic responses of male *Drosophila melanogaster* to the level of sperm competition increase male reproductive fitness
By A. Bretman, C. Fricke and T. Chapman
Female offspring desertion and male-only care increase with natural and experimental increase in food abundance
  By K. Eldegard and G. A. Sonerud 1713

Female behaviour plays a critical role in controlling murine pregnancy block
  By S. D. Becker and J. L. Hurst 1723

Allometry of visceral organs in living amniotes and its implications for sauropod dinosaurs
  By R. Franz, J. Hummel, E. Kienzle, P. Köble, H.-C. Gunga and M. Clauss 1731

Review articles

Reactive oxygen species as universal constraints in life-history evolution
  By D. K. Dowling and L. W. Simmons 1737

Research articles

Looking on the bright side: biased attention and the human serotonin transporter gene
  By E. Fox, A. Ridgewell and C. Ashwin 1747

Ecological selection pressures for C_4 photosynthesis in the grasses
  By C. P. Osborne and R. P. Freckleton 1753

Temporal mechanisms of multimodal binding
  By D. Burr, O. Silva, G. M. Cicchini, M. S. Banks and M. C. Morrone 1761

Angiosperm leaf vein evolution was physiologically and environmentally transformative
  By C. K. Boyce, T. J. Brodribb, T. S. Feild and M. A. Zwieniecki 1771

Distinguishing epidemic waves from disease spillover in a wildlife population
  By M. E. Craft, E. Volz, C. Packer and L. A. Meyers 1777

Foam nest components of the túngara frog: a cocktail of proteins conferring physical and biological resilience
  By R. I. Fleming, C. D. Mackenzie, A. Cooper and M. W. Kennedy 1787

Where is the light? Bayesian perceptual priors for lighting direction
  By J. V. Stone, I. S. Kerrigan and J. Porrill 1797

Colimitation of a freshwater herbivore by sterols and polyunsaturated fatty acids
  By D. Martin-Creuzburg, E. Sperfeld and A. Wacker 1805

A new long-necked ‘sauropod-mimic’ stegosaur and the evolution of the plated dinosaurs
  By O. Mateus, S. C. R. Maidment and N. A. Christiansen 1815

Compensatory mutations are repeatable and clustered within proteins
  By B. H. Davis, A. F. Y. Poon and M. C. Whitlock 1823

Network-based diffusion analysis: a new method for detecting social learning
  By M. Franz and C. L. Nunn 1829

We age because we grow
  By H. S. Kaplan and A. J. Robson 1837

Decline in the frequency and benefits of multiple brooding in great tits as a consequence of a changing environment
  By A. Husby, L. E. B. Kruuk and M. E. Visser 1845

Birth season glucocorticoids are related to the presence of infants in sifaka (Propithecus verreauxi)
  By D. K. Brockman, A. K. Cobden and P. L. Whitten 1855

Inducible defences as key adaptations for the successful invasion of Daphnia lumholtzi in North America?
  By K. Engel and R. Tollrian 1865

Female mate choice across spatial scales: influence of lek and male attributes on mating success of blue-crowned manakins
  By R. Düräs, B. A. Loiselle, P. G. Parker and J. G. Blake 1875

Temperature, but not pH, compromises sea urchin fertilization and early development under near-future climate change scenarios
  By M. Byrne, M. Ho, P. Selvakumaraswamy, H. D. Nguyen, S. A. Dworjanyn and A. R. Davis 1883

Can fertility signals lead to quality signals? Insights from the evolution of primate sexual swellings
  By E. Huchard, A. Courtiol, J. A. Benavides, L. A. Knapp, M. Raymond and G. Cowlishaw 1889

Predation risk as a driving force for phenotypic assortment: a cross-population comparison
  By D. P. Croft, S. K. Darden and G. D. Ruxton 1899

Concealed by conspicuousness: distractive prey markings and backgrounds
  By M. Dimitrova, N. Stobbe, H. M. Schaefer and S. Merilaita 1905

Poor horse traders: large mammals trade survival for reproduction during the process of feralization
  By S. Grange, P. Duncan and J.-M. Gaillard 1911
Trade-offs between activity and thermoregulation in a small carnivore, the least weasel

**Mustela nivalis**

By K. Zubi, P. A. Szafran’ska, M. Konarzewski, P. Redman and J. R. Speakman

no. 1664, 7 June 2009

The Royal Society is an independent scientific academy founded in 1660 and self-governing under Royal Charter. The Society has three roles, as the scientific academy of the United Kingdom, as a learned society, and as a funding body.

Objectives of the Royal Society are to:
- encourage excellence in science
- support leading-edge scientific research and its applications
- stimulate international interaction
- further the role of science, engineering and technology in society
- promote the public understanding of science
- provide independent authoritative advice on matters relating to science, engineering and technology
- encourage research into the history of science

For further information on the Society’s activities, please contact the following departments on the extensions listed by dialing +44 (0)20 7839 5361, or visit the Society’s Web site (royalsociety.org).

Research Support (UK grants and fellowships)
Research appointments: 2547
Conference grants: 2450
Science Advice
General enquiries: 2585
Science Communication
General enquiries: 2572
International Exchanges (for grants enabling research visits between the UK and most other countries (except the USA))
General enquiries: 2550
Library and Information Services
Liberary/archive enquiries: 2606
