

**Introduction****Recent advances in Chinese palaeontology**

X. Xu, Z.-X. Luo & J.-Y. Rong

161

Research articles**The earliest history of the deuterostomes: the importance of the Chengjiang Fossil-Lagerstätte**

D.-G. Shu, S. Conway Morris, Z.-F. Zhang & J. Han

165

Epibionts on the lingulate brachiopod *Diandongia* from the Early Cambrian Chengjiang Lagerstätte, South China

Z. Zhang, J. Han, Y. Wang, C. C. Emig & D. Shu

175

A longirostrine tyrannosauroid from the Early Cretaceous of China

D. Li, M. A. Norell, K.-Q. Gao, N. D. Smith & P. J. Makovicky

183

A giant ornithomimosaur from the Early Cretaceous of China

P. J. Makovicky, D. Li, K.-Q. Gao, M. Lewin, G. M. Erickson & M. A. Norell

191

A new psittacosaur from Inner Mongolia and the parrot-like structure and function of the psittacosaur skull

P. C. Sereno, Z. Xijin & T. Lin

199

A short-armed dromaeosaurid from the Jehol Group of China with implications for early dromaeosaurid evolution

X. Zheng, X. Xu, H. You, Q. Zhao & Z. Dong

211

A new Lower Cretaceous bird from China and tooth reduction in early avian evolution

Z. Zhou & F. Z. Z. Li

219

New basal eutherian mammal from the Early Cretaceous Jehol biota, Liaoning, China

Y. Hu, J. Meng, C. Li & Y. Wang

229

A new mammal skull from the Lower Cretaceous of China with implications for the evolution of obtuse-angled molars and 'amphiletid' eutriconodonts

C.-L. Gao, G. P. Wilson, Z.-X. Luo, A. M. Maga, Q. Meng & X. Wang

237

A new tarkadectine primate from the Eocene of Inner Mongolia, China: phylogenetic and biogeographic implications

X. Ni, J. Meng, K. C. Beard, D. L. Gebo, Y. Wang & C. Li

247

Evolutional trends and palaeobiogeography of the Ordovician trilobite *Ovalocephalus* Koroleva 1959

Z. Zhiyi, Y. Wenwei & Z. Zhiqiang

257

Llandovery sporomorphs and graptolites from the Manbo Formation, the Mojiang County, Yunnan, China

Y. Wang & Y. Zhang

267

Historical distribution patterns of trigonioidids (non-marine Cretaceous bivalves) in Asia and their palaeogeographic significance

J. Sha

277

A new specimen of *Biseridens qilianicus* indicates its phylogenetic position as the most basal anomodont

J. Liu, B. Rubidge & J. Li

285

An onychodont fish (Osteichthyes, Sarcopterygii) from the Early Devonian of China, and the evolution of the Onychodontiformes

J. Lu & M. Zhu

293

Nystroemiaceae, a new family of Permian gymnosperms from China with an unusual combination of features

J. Wang & H. W. Pfefferkorn

301

Fertile organs and *in situ* spores of a new dipteridaceous fern *Hausmannia sinensis* from the Jurassic of northern China

Y. Wang & H. Zhang

311

The soft tissue of *Jeholopterus* (Pterosauria, Anurognathidae, Batrachognathinae) and the structure of the pterosaur wing membrane

A. W. A. Kellner, X. Wang, H. Tischlinger, D. de Almeida Campos, D. W. E. Hone & X. Meng

321

The evolution of the lepidosaurian lower temporal bar: new perspectives from the Late Cretaceous of South China

J.-Y. Mo, X. Xu & S. E. Evans

331

A new *Homo erectus* (Zhoukoudian V) brain endocast from China

X. Wu, L. A. Schepartz & W. Liu

337

Founded in 1660, the Royal Society is the independent scientific academy of the UK, dedicated to promoting excellence in science
