

**Introduction****Recent advances in Chinese palaeontology**

X. Xu, Z.-X. Luo &amp; J.-Y. Rong

161

**Research articles****The earliest history of the deuterostomes: the importance of the Chengjiang Fossil-Lagerstätte**

D.-G. Shu, S. Conway Morris, Z.-F. Zhang &amp; J. Han

165

**Epibionts on the lingulate brachiopod *Diandongia* from the Early Cambrian Chengjiang Lagerstätte, South China**

Z. Zhang, J. Han, Y. Wang, C. C. Emig &amp; D. Shu

175

**A longirostrine tyrannosauroid from the Early Cretaceous of China**

D. Li, M. A. Norell, K.-Q. Gao, N. D. Smith &amp; P. J. Makovicky

183

**A giant ornithomimosaur from the Early Cretaceous of China**

P. J. Makovicky, D. Li, K.-Q. Gao, M. Lewin, G. M. Erickson &amp; M. A. Norell

191

**A new psittacosaur from Inner Mongolia and the parrot-like structure and function of the psittacosaur skull**

P. C. Sereno, Z. Xijin &amp; T. Lin

199

**A short-armed dromaeosaurid from the Jehol Group of China with implications for early dromaeosaurid evolution**

X. Zheng, X. Xu, H. You, Q. Zhao &amp; Z. Dong

211

**A new Lower Cretaceous bird from China and tooth reduction in early avian evolution**

Z. Zhou &amp; F. Z. Z. Li

219

**New basal eutherian mammal from the Early Cretaceous Jehol biota, Liaoning, China**

Y. Hu, J. Meng, C. Li &amp; Y. Wang

229

**A new mammal skull from the Lower Cretaceous of China with implications for the evolution of obtuse-angled molars and 'amphiletid' eutriconodonts**

C.-L. Gao, G. P. Wilson, Z.-X. Luo, A. M. Maga, Q. Meng &amp; X. Wang

237

**A new tarkadectine primate from the Eocene of Inner Mongolia, China: phylogenetic and biogeographic implications**

X. Ni, J. Meng, K. C. Beard, D. L. Gebo, Y. Wang &amp; C. Li

247

**Evolutional trends and palaeobiogeography of the Ordovician trilobite *Ovalocephalus* Koroleva 1959**

Z. Zhiyi, Y. Wenwei &amp; Z. Zhiqiang

257

**Llandovery sporomorphs and graptolites from the Manbo Formation, the Mojiang County, Yunnan, China**

Y. Wang &amp; Y. Zhang

267

**Historical distribution patterns of trigonoidids (non-marine Cretaceous bivalves) in Asia and their palaeogeographic significance**

J. Sha

277

**A new specimen of *Biseridens qilianicus* indicates its phylogenetic position as the most basal anomodont**

J. Liu, B. Rubidge &amp; J. Li

285

**An onychodont fish (Osteichthyes, Sarcopterygii) from the Early Devonian of China, and the evolution of the Onychodontiformes**

J. Lu &amp; M. Zhu

293

**Nystroemiaceae, a new family of Permian gymnosperms from China with an unusual combination of features**

J. Wang &amp; H. W. Pfefferkorn

301

**Fertile organs and *in situ* spores of a new dipteridaceous fern *Hausmannia sinensis* from the Jurassic of northern China**

Y. Wang &amp; H. Zhang

311

**The soft tissue of *Jeholopterus* (Pterosauria, Anurognathidae, Batrachognathinae) and the structure of the pterosaur wing membrane**

A. W. A. Kellner, X. Wang, H. Tischlinger, D. de Almeida Campos, D. W. E. Hone &amp; X. Meng

321

**The evolution of the lepidosaurian lower temporal bar: new perspectives from the Late Cretaceous of South China**

J.-Y. Mo, X. Xu &amp; S. E. Evans

331

**A new *Homo erectus* (Zhoukoudian V) brain endocast from China**

X. Wu, L. A. Schepartz &amp; W. Liu

337

Founded in 1660, the Royal Society is the independent scientific academy of the UK, dedicated to promoting excellence in science
