Review articles

Resolving phylogenetic incongruence to articulate homology and phenotypic evolution: a case study from Nematoda 1299
E. J. Ragsdale & J. G. Baldwin

Research articles

Explosive eversion and functional morphology of the duck penis supports sexual conflict in waterfowl genitalia 1309
P. S. R. Brennan, C. J. Clark & R. O. Prum

Eyes are on us, but nobody cares: are eye cues relevant for strong reciprocity? 1315
E. Role & T. Schneider

The energetic basis of acoustic communication 1325
J. F. Gibbons & A. G. Opie

Irradiance governs exploitation of fungi: fine-tuning of carbon gain by two partially myco-heterotrophic orchids 1333
R. Prasad, H. K. U. Adam & C. Gebauer

Aggression, segregation and stability in a dominance hierarchy 1337
T. A. Ang & A. Manca

Sexual conflict and the gender load: correlated evolution between population fitness and sexual dimorphism in seed beetles 1345
G. Arpino & M. Toda

Decline in top predator body size and changing climate alter trophic structure in an oceanic ecosystem 1353
N. S. G. S. E. Shackell, T. F. Frank, J. A. D. Fahy, B. Petrie & W. C. Leggett

How rugged individuals can find food and shelter: field experiments with tropical hermit crabs 1361
M. E. Laidre

Microscale laser surgery reveals adaptive function of male intramittent genitalia 1371
M. F. Pilk & A. B. Knudsen

Tool use by wild New Caledonian crows Corvus moneduloides at natural foraging sites 1377

Pattern mimicry of host eggs by the common cuckoo, as seen through a bird’s eye 1387
M. C. Steadman & M. Stevens

Behavioural consequences of sensory plasticity in guppies 1395
B. B. Chapman, L. M. C. M. J. Shaffer & J. Krause

Systematic factors dominate mammal protein evolution 1403
A. E. Vinogradov

The direct effects of increasing CO2 and temperature on non-calcifying organisms: increasing the potential for phase shifts in kelp forests 1409
S. D. Connell & B. D. Russell

A mathematical model of exposure of non-target Lepidoptera to Bt maize pollen expressing CryIA(b) within Europe 1417

Learning your own strength: winner and loser effects should change with age and experience 1427
T. W. Fawcett & R. A. Johnstone

Positive feedback in the transition from sexual reproduction to parthenogenesis 1435
C. Schwaner, S. Willandner, J. Dauth & B. J. Crepin

Even small SNP clusters are non-randomly distributed: is this evidence of mutational non-independence? 1443
W. Amos

The role of extinction in large-scale diversity-stability relationships 1451
C. Sims & W. Rissing
