Review articles
Resolving phylogenetic incongruence to articulate homology and phenotypic evolution: a case study from Nematoda
E. J. Ragsdale & J. G. Baldwin

Research articles
Explosive eversion and functional morphology of the duck penis supports sexual conflict in waterfowl genitalia
P. S. R. Bronson, C. J. Clark & R. O. Prum

Eyes on us, but nobody cares: are eye cues relevant for strong reciprocity?
E. Ives & R. Schneider

The energetic basis of acoustic communication
J. F. Gibb & A. G. Ogilvie

Irradiance governs exploitation of fungi: fine-tuning of carbon gain by two partially myco-heterotrophic orchids
R. Prins, J. K. U. Adam & G. Gebauer

Aggression, segregation and stability in a dominance hierarchy
T. A. Ang & A. Marca

Sexual conflict and the gender load: correlated evolution between population fitness and sexual dimorphism in seed beetles
G. Arpino & M. Toda

Decline in top predator body size and changing climate alter trophic structure in an oceanic ecosystem

How rugged individualists enable one another to find food and shelter: field experiments with tropical hermit crabs
M. E. Landre

Microscale laser surgery reveals adaptive function of male intromittent genitalia
M. Poták & A. Rashed

Tool use by wild New Caledonian crows Corvus moneduloides at natural foraging sites
L. A. Bluff, J. Troscianko, A. A. S. Wer, A. Kasanthak & C. Buzut

Pattern mimicry of host eggs by the common cuckoo, as seen through a bird’s eye
M. C. Sheldon & M. Stevens

Behavioural consequences of sensory plasticity in guppies

Systemic factors dominate mammal protein evolution
A. E. Vinogradov

The direct effects of increasing CO₂ and temperature on non-calciﬁying organisms: increasing the potential for phase shifts in kelp forests
S. D. Connell & B. D. Russell

A mathematical model of exposure of non-target Lepidoptera to Bt-maize pollen expressing Cry1Ab within Europe

Learning your own winner: winner and loser effects should change with age and experience
T. W. Fawcett & R. A. Johnstone

Positive feedback in the transition from sexual reproduction to parthenogenesis
T. Schwander, S. Wallis, J. Duftman & B. J. Crespi

Even small SNP clusters are non-randomly distributed: is this evidence of mutational non-independence?
W. Amos

The role of extinction in large-scale diversity-stability relationships
C. Simpson & W. Kiessling
