Review articles

Genomic signatures of diet-related shifts during human origins 961
C. C. Babbitt, L. R. Warner, O. Fedrigo, C. E. Wall & G. A. Way

The origin and dynamic evolution of chemical information transfer 970
S. Steiger, T. Schmitt & H. M. Schaefer

Comments and invited replies

Modelling in the light of uncertainty of key parameters: a call to exercise caution in field predictions of Bt-maize effects 980
A. Leng, S. Brunzel, M. Dolek, M. Otto & R. Theissen

The usefulness of a mathematical model of exposure for environmental risk assessment 982
J. M. Perry, Y. Denou, S. Arpaia, S. Pantaleo & M. Nishida

Research articles

Effects of weather and climate on the dynamics of animal population time series 985
J. Krupa & P. de Valpine

Pseudogenization of the tooth gene enamelysin (MMP20) in the common ancestor of extant baleen whales 993
R. W. Meredith, J. Gatesy, J. Cheng & M. S. Springer

Spatially explicit predictions of blood parasites in a widely distributed African rainforest bird 1025

Genetic differentiation of the house mouse around the Mediterranean basin: matrilineal footprints of early and late colonization 1034

Sex allocation in haplodiploids is mediated by egg size: evidence in the spider mite Tetranychus urticae Koch 1054
E. Macke, S. Magalhães, H. Do-Thi Khan, A. Luciano, A. Frantz, B. Facon & I. Olivieri

Spatial and temporal signatures of fragility and threshold proximity in modelled semi-arid vegetation 1064
R. M. Bailey

Mimicry as a novel pathway linking biodiversity functions and individual behavioural performances 1072
P. Lapin, J. R. Oliveira & P. Royez

Optimal antiviral treatment strategies and the effects of resistance 1082
I. Hansen & T. Day

Correlates of redescription and the detectability of extinction in mammals 1099
D. O. Fisher & S. P. Blomberg

Is oxidative stress a physiological cost of reproduction? An experimental test in house mice 1098

Footprints pull origin and diversification of dinosaur stem lineage deep into Early Triassic 1107
S. L. Brusatte, G. Niedzwiedzki & R. J. Butler

Heterotopy of female extra-pair paternity rate in song sparrows (Melospiza melodia) 1114
J. M. Reid, P. Arne, J. R. Sandell & L. F. Kahl

Founded in 1660, the Royal Society is the independent scientific academy of the UK, dedicated to promoting excellence in science
