The Royal Society, the national academy of science of the UK and the Commonwealth, is all cutting edge of scientific progress. We support some top leading scientists, engineers and technologists, influence science policy, debate scientific issues with the public and much more. We are an independent, charitable body and derive our authoritative status from over 1400 Fellows and Foreign Members.

Our mission: to expand knowledge and further the role of science and engineering in making the world a better place.

For further information on the Society’s activities, please contact the following departments on the extensions listed by dialing +44 (0)20 7839 5561, or visit the Society’s Web site (royalsociety.org).

GUIDANCE FOR AUTHORS

Selection criteria

The criteria for selection are: work of outstanding importance, scientific excellence, originality and potential interest to a wide spectrum of biologists. The Editors are responsible for all editorial decisions and they make these decisions based on the reports received from the referees as well as Editorial Board members.

Many more manuscripts are submitted to us than we have space to print, and we give priority to those that present significant advances of broad interest. Submission of preliminary reports, of articles that merely confirm previous findings, and of articles that are likely to interest only small groups of specialists, is not encouraged. All articles are sent to Editorial Board members for an initial assessment of their suitability, and may be returned to authors without in-depth peer review if this assessment makes it seem unlikely that they will be accepted.

Electronic submission details

The Royal Society’s electronic submission and peer review service provides Proc. R. Soc. B authors with the facility to submit their papers online. The service allows you to upload files in a reliable and user-friendly way, using a Web-based system. When your paper is received, an immediate acknowledgement is sent that details how you can track your contribution online.

For further submission guidelines and access to all journal content please visit the Proc. R. Soc. B website, for further details see rps.royalsocietypublishing.org.
