Review articles
The role of developmental plasticity in evolutionary innovation 2705

The structure and function of cardiac t-tubules in health and disease 2714
M. Ibrahim, J. Grellle, M. H. Vatsis & C. M. Terracciano

Comments and invited replies
Measuring the cost of plasticity: a problem of statistical non-independence 2724
D. A. Roff

Measuring the cost of plasticity: avoid multi-collinearity 2726
J. R. Auld, A. A. Agrawal & R. A. Relyea

Research articles
Scaling up ideals to freedom: are densities of red knots across western Europe consistent with ideal free distribution? 2728
G. Quantenme, J. A. van Gils, P. Bocher, A. Dekinga & T. Piersma

Phylogeny and palaeoecology of Polyommatus blue butterflies show Beringia was a climate-regulated gateway to the New World 2737

Locusts use dynamic thermoregulatory behaviour to optimize nutritional outcomes 2745
N. Coggin, F. J. Cisowski & S. J. Spedison

Modelling the impact of local reaetive school closures on critical care provision during an influenza pandemic 2753

Bats are able to maintain long-term social relationships despite the high fission-fusion dynamics of their groups 2761
C. Keith, N. Penney & F. Schmitt

Kin selection in den sharing develops under limited availability of tree hollows for a forest marsupial 2768
S. C. Banks, D. B. Lindenmayer, D. McBean, N. Black, E. J. Knight & M. D. J. Blyton

Brood parasitism selects for no defence in a cuckoo host 2777
O. Krieger

Natural variation in Pristionchus pacificus dauer formation reveals cross-preference rather than self-preference of nematode dauer pheromones 2784
M. G. Mayer & B. J. Sommer

Oldest cingulate skulls provide congruence between morphological and molecular scenarios of armadillo evolution 2791
C. Bibe, I. Haber, C. De Muizon & X. Valentin

Constrained mate choice in social monogamy and the stress of having an unattractive partner 2798
S. C. Griffith, S. R. Pyke & W. A. Butterm

Conspecifics as informers and competitors: an experimental study in foraging bumble-bees 2806
M. baud, E. Danchis, M. Magaló & I. Dajoz

Ploidy and the evolution of parasitism 2814
L. K. Mcgonigle & S. P. Otto

Polyandrous females benefit by producing sons that achieve high reproductive success in a competitive environment 2823
R. C. Firman

Host-parasite local adaptation after experimental coevolution of Caenorhabditis elegans and its mictroparasite Bacillus thuringiensis 2832
R. D. Schulte, C. Makus, B. Hasert, N. K. Michels & H. Schultes

Acoustic facilitation of object movement detection during self-motion 2840
F. J. Calabro, S. Soto-faraco & L. M. Vaina

Identification of a gene associated with avian migratory behaviour 2848
J. C. Muller, F. Pulido & B. Kempenaers
