Oxidative stress and condition-dependent sexual signals: more than just seeing red
M. Garratt & R. C. Brooks

Research articles

1. Cross-methyl individual recognition in domestic horses (Equus caballus) extends to familiar humans
S. Matsui & R. McCann

2. Timing in a fluctuating environment: environmental suitability and asymmetric fitness curves can lead to adaptively estimated avian reproduction
M. E. Lof, T. E. Reed, J. M. McNamara & M. E. Visser

3. Relationship between maternal transfer of immunity and mother fecundity in an insect
L. P. Lawson, R. K. Vander Meer & D. Shoemaker

4. Modelling the interaction of keratinocytes and fibroblasts during normal and abnormal wound healing processes
M. Reski, C. J. Weadick, A. C. Price & F. H. Rodd

5. A cascade of evolutionary change alters consumer-resource dynamics and ecosystem function
M. D. Hall & D. Ebert

6. Is there evidence for automatic imitation in a strategic context?
C. Zanchi, J.-P. Troussard, J. Moreau & Y. Moret

7. Extensive island dwarfism evolved in a mammal
Y. L. Heintges & A. M. Loher

8. Determinants of reproductive success across sequential episodes of sexual selection in a fly
A. South & S. M. Lois

9. Extreme insular dwarfism and female use of refuge in a coevolving mating system
D. Oliveros, P. L. M. Marshall, G. Stoddard & M. B. Beard

10. The implications of immunopathology for parasite evolution
B. Aczel, B. Bago & A. Foldes

11. Functional diversity at neutral and adaptive loci determines individual fitness in a long-lived terrestrial bird
K. F. Hagg, M. Carraro, R. Grand, A. W. Travis & J. A. D. Doar

12. Is there evidence for automatic imitation in a strategic context?
C. Zanchi, J.-P. Troussard, J. Moreau & Y. Moret

13. Long-term demographic consequences of a seed dispersal disruption
A. Travis, P. J. Groenewold & B. Valle

14. A broader model for C4 photosynthesis evolution in plants inferred from the goosefoot family (Chenopodiaceae s.s.)
A. Traveset, J. P. González-Varo & A. Valido

15. Testing the independent species’ arrangement assertion made by theories of stochastic geometry of biodiversity
V. L. Mechan, J. C. Webster, H. E. Dixon, L. C. Sallan & M. D. Pirie

16. Oxidative stress and condition-dependent sexual signals: more than just seeing red
M. Garratt & R. C. Brooks

17. A model of sexual selection and female use of refuge in a cooperative nesting system
D. Oliveros, P. L. M. Marshall, G. Stoddard & M. B. Beard

18. Modelling the interaction of keratinocytes and fibroblasts during normal and abnormal wound healing processes
M. Reski, C. J. Weadick, A. C. Price & F. H. Rodd

19. Is there evidence for automatic imitation in a strategic context?
C. Zanchi, J.-P. Troussard, J. Moreau & Y. Moret

20. Long-term demographic consequences of a seed dispersal disruption
A. Travis, P. J. Groenewold & B. Valle

21. A broader model for C4 photosynthesis evolution in plants inferred from the goosefoot family (Chenopodiaceae s.s.)
A. Traveset, J. P. González-Varo & A. Valido

22. Testing the independent species’ arrangement assertion made by theories of stochastic geometry of biodiversity
V. L. Mechan, J. C. Webster, H. E. Dixon, L. C. Sallan & M. D. Pirie

23. Oxidative stress and condition-dependent sexual signals: more than just seeing red
M. Garratt & R. C. Brooks

24. A model of sexual selection and female use of refuge in a cooperative nesting system
D. Oliveros, P. L. M. Marshall, G. Stoddard & M. B. Beard

25. Modelling the interaction of keratinocytes and fibroblasts during normal and abnormal wound healing processes
M. Reski, C. J. Weadick, A. C. Price & F. H. Rodd

26. Is there evidence for automatic imitation in a strategic context?
C. Zanchi, J.-P. Troussard, J. Moreau & Y. Moret

27. Long-term demographic consequences of a seed dispersal disruption
A. Travis, P. J. Groenewold & B. Valle

28. A broader model for C4 photosynthesis evolution in plants inferred from the goosefoot family (Chenopodiaceae s.s.)
A. Traveset, J. P. González-Varo & A. Valido

29. Testing the independent species’ arrangement assertion made by theories of stochastic geometry of biodiversity
V. L. Mechan, J. C. Webster, H. E. Dixon, L. C. Sallan & M. D. Pirie

30. Oxidative stress and condition-dependent sexual signals: more than just seeing red
M. Garratt & R. C. Brooks

31. A model of sexual selection and female use of refuge in a cooperative nesting system
D. Oliveros, P. L. M. Marshall, G. Stoddard & M. B. Beard

32. Modelling the interaction of keratinocytes and fibroblasts during normal and abnormal wound healing processes
M. Reski, C. J. Weadick, A. C. Price & F. H. Rodd

33. Is there evidence for automatic imitation in a strategic context?
C. Zanchi, J.-P. Troussard, J. Moreau & Y. Moret

34. Long-term demographic consequences of a seed dispersal disruption
A. Travis, P. J. Groenewold & B. Valle

35. A broader model for C4 photosynthesis evolution in plants inferred from the goosefoot family (Chenopodiaceae s.s.)
A. Traveset, J. P. González-Varo & A. Valido

36. Testing the independent species’ arrangement assertion made by theories of stochastic geometry of biodiversity
V. L. Mechan, J. C. Webster, H. E. Dixon, L. C. Sallan & M. D. Pirie

37. Oxidative stress and condition-dependent sexual signals: more than just seeing red
M. Garratt & R. C. Brooks
