Expression of concern

An island paradigm on the mainland: host population fragmentation impairs the community of avian pathogens

Matthias Vögeli, Jesús A. Lemus, David Serrano, Guillermo Blanco and José L. Tella

Subsequent to publication of “An island paradigm on the mainland: host population fragmentation impairs the community of avian pathogens, Proc. R. Soc. B 278, 2668–2676 (7 September 2011; published online January 26 2011, doi:10.1098/rspb.2010.1227)”, the journal received an expression of concern from the authors (Matthias Vögeli, David Serrano, Guillermo Blanco and José L. Tella) about the validity of some of the data based on laboratory analyses carried out by Jesús A. Lemus. While awaiting the outcome of further investigations, the Editor-in-Chief and the authors wish to notify readers of our concerns regarding this article.
