Review articles

Intraguild predation provides a selection mechanism for bacterial antagonistic compounds 4513
J. J. Leisner & J. Haaber

How hierarchical is language use? 4522
S. L. Frank, R. Bod & M. H. Christiansen

Research articles

Environmental extremes versus ecological extremes: impact of a massive iceberg on the population dynamics of a high-level Antarctic marine predator 4532
T. Chambert, J. J. Rotella & R. A. Garrott

Environmental extremes versus ecological extremes: impact of a massive iceberg on the population dynamics of a high-level Antarctic marine predator 4532
T. Chambert, J. J. Rotella & R. A. Garrott

Fluctuations in food supply drive recruitment variation in a marine fish 4542
D. K. Okamoto, R. J. Schmitt, S. J. Holbrook & D. C. Reed

Footprints in time: comparative quantitative trait loci mapping of the pitcher-plant mosquito, Wyeomyia smithii 4551
H. J. T. Hoving & B. H. Robison

Vampire squid: detritivores in the oxygen minimum zone 4559
J. J. Rotella, K. J. Emerson, J. M. Catchen, W. A. Cresko & C. M. Holzapfel

The impact of past climate change on genetic variation and population connectivity in the Icelandic Arctic fox 4568

Changing spatial epidemiology of pertussis in continental USA 4574
M. Chang & P. Rohani

Dramatic intraspecific differences in migratory routes, stopover sites and wintering areas, revealed using light-level geolocators 4582
K. E. Delmore, J. W. Fox & D. E. Irwin

The riddle of Tasmanian languages 4590
C. Bowern

An inclusive fitness analysis of synergistic interactions in structured populations 4596
P. Taylor & W. Maciejewski

A test of maternal human chorionic gonadotropin during pregnancy as an adaptive filter of human gestations 4604
T. A. Brusher, K. B. Santos, M. Pearl, R. Currier & M. Khanna

Mutualism and evolutionary multiplayer games: revisiting the Red King 4611
C. S. Gokhale and A. Traulsen

Multiple nuclear genes and retroposons support vicariance and dispersal of the palaegnaths, and an Early Cretaceous origin of modern birds 4617
O. Haddrath & A. J. Baker

Separating spatial search and efficiency rates as components of predation risk 4626
N. J. DeCesare

Sex-ratio adjustment in response to local mate competition is achieved through an alteration of egg size in a haplodiploid spider mite 4634
E. S. Macke, S. Magalhães, F. Bach & I. Olivieri

Modelling the coevolution of joint attention and language 4643
T. Gong & L. Shuai

Predicting evolutionary responses to selection on polyandry in the wild: additive genetic covariances with female extra-pair reproduction 4652
J. M. Reid

Mating system affects population performance and extinction risk under environmental challenge 4661
A. Planchar-Bielak, A. M. Skrzynecka, Z. M. Prokop & J. Radwan

Jack-of-all-trades: phenotypic plasticity facilitates the invasion of an alien slug species 4668
E. Knop & N. Reusser

Virulence, drug sensitivity and transmission success in the rodent malaria, Plasmodium chabaudi 4677
