

# PROCEEDINGS OF THE ROYAL SOCIETY B

*Proc. R. Soc. B* welcomes articles of outstanding quality in all aspects of biology. Currently, it is particularly strong in ecology in the widest sense, and behavioural and evolutionary biology. Proceedings B also publishes significant numbers of papers in health and disease, palaeontology and biomechanics, as well as molecular biology, neuroscience and cognition, where these bear upon organismal biology. Authors are encouraged to submit articles not only in these fields, but in all branches of biology. The criteria for selection are: work of outstanding importance, scientific excellence, originality and potential interest to a wide spectrum of biologists.
