

INDEX TO VOL. LXXXII. (B)

- Address of President, November 30, 1909 (Geikie), 151.
- Adrenal medulla and chromaphil tissues (Vincent), 502.
- Agglutinin, absorption by bacteria, and application of physico-chemical laws thereto (Dreyer and Douglas), 185 ; — adsorption by animal charcoal, velocity of reaction in (Dreyer and Douglas), 168.
- Alcoholic fermentation, function of phosphates in (Harden and Young), 321.
- Amakebe, a disease of calves in Uganda (Bruce and others), 256.
- Arbuckle (H. E.) Some Experiments with the Venom of *Causus rhombeatus*, 144.
- Armstrong (H. E. and E. F.) The Origin of Osmotic Effects. III.—The Function of Hormones in stimulating Enzymic Change in Relation to Narcosis and the Phenomena of Degenerative and Regenerative Change in Living Structures, 588.
- Armstrong (H. E.) and Horton (E.) Studies on Enzyme Action. XIII.—Enzymes of the Emulsin Type, 349.
- Autotoxæmia and infection (Hort), 529.
- Bashford (E. F.) and Russell (B. R. G.) Further Evidence on the Homogeneity of the Resistance to the Implantation of Malignant New Growths, 298.
- Bateman (H. R.) See Bruce (Sir D.) and others.
- Blood from diseases in man, hæm-agglutinins, hæm-opsonins, etc., in (Dudgeon and Wilson), 67.
- Blood, inorganic composition of, and its origin (Macallum), 602.
- Blood volume of mammals, and relation to body-weight and surface-area expressed in a formula (Dreyer and Ray), 545.
- Bolton (C.) Further Observations on the Pathology of Gastric Ulcer (Progress Report), 233.
- Bottomley (W. B.) The Assimilation of Nitrogen by certain Nitrogen-fixing Bacteria in the Soil, 627.
- Brain, occurrence of mesocolic recess in (Dendy and Nicholls), 515.
- Bridge (T. W.) Obituary notice of, vii.
- Bruce (Sir D.) and others. Sleeping Sickness in Uganda.—Duration of Infectivity of *Glossina palpalis* after the Removal of the Lake-shore Population, 56 ; — *Glossina palpalis* as a Carrier of *Trypanosoma vivax* in Uganda, 63 ; — Amakebe : a Disease of Calves in Uganda, 256 ; — The Development of Trypanosomes in Tsetse Flies, 368 ; — Trypanosome Diseases of Domestic Animals in Uganda. I.—*Trypanosoma pecorum*, 468 ; — “Muhinyo,” a Disease of Natives in Uganda, 485 ; — Experiments to ascertain if Cattle may act as a Reservoir of the Virus of Sleeping Sickness (*Tryp. gambiense*), 480 ; — The Natural Food of *Glossina palpalis*, 490 ; — Mechanical Transmission of Sleeping Sickness by the Tsetse Fly, 498.
- Caffeine and theobromine, comparative toxicity of (Veley and Waller), 568.
- Cancer, reactions to implantation of, after inoculation of living and disintegrated cells (Haaland), 293.
- Carbon dioxide assimilation in leaves, increase of weight as measure of (Thoday), 1.
- Causus rhombeatus*, experiments with venom of (Arbuckle), 144.
- Cerebral cortex of Echidna, cell lamination of (Schuster), 113.

- Chapman (H. G.) On the Weight of Precipitate obtainable in Precipitin Interactions, 398.
- Cholesterol and cholesterol esters, quantity in blood of rabbits on varying diets (Fraser and Gardner), 559.
- Chromaphil tissues and adrenal medulla (Vincent), 502.
- Cole (F. J.) Tone Perception in *Gammarus pulex*, 391.
- Colour perception, relation of light perception to (Edridge-Green), 458.
- Cramer (W.) and Pringle (H.) Contributions to the Biochemistry of Growth.—The Total Nitrogen Metabolism of Rats bearing Malignant New Growths, 307.
- Cranial nerves, receptors and afferents of the third, fourth, and sixth (Tozer and Sherrington), 450.
- Croonian lecture (Klebs), 547.
- Cushny (A. R.) See Thomson and Cushny.
- Dallinger (W. H.) Obituary notice of, iv.
- Dendy (A.) On the Structure, Development, and Morphological Interpretation of the Pineal Organs and Adjacent Parts of the Brain in the Tuatara (*Sphenodon punctatus*), 629.
- Dendy (A.) and Nicholls (G. E.) On the Occurrence of a Mesocoelic Recess in the Human Brain, and its Relation to the Sub-Commissural Organ of Lower Vertebrates, 515.
- Doncaster (L.) Gametogenesis of the Gall-fly, *Neuroterus lenticularis*.—Part I, 88.
- Douglas (C. G.) and Haldane (J. S.) The Causes of Absorption of Oxygen by the Lungs (Preliminary Communication), 331.
- Douglas (J. S. C.) See Dreyer and Douglas.
- Dreyer (G.) and Douglas (J. S. C.) The Velocity of Reaction in the "Absorption" of Specific Agglutinins by Bacteria, and in the "Adsorption" of Agglutinins, Trypsin, and Sulphuric Acid by Animal Charcoal, 168; — On the Absorption of Agglutinin by Bacteria, and the Application of Physico-chemical Laws thereto, 185.
- Dreyer (G.) and Ray (W.) The Blood Volume of Mammals as Determined by Experiments upon Rabbits, Guinea-Pigs, and Mice, and its Relationship to the Body Weight and Surface Area expressed in a Formula, 545.
- Drugs, rate of action of, upon muscle as function of temperature (Veley and Waller), 205.
- Dudgeon (L. S.), Panton (P. N.), and Wilson (H. A. F.) The Influence of Bacterial Endotoxins on Phagocytosis (Preliminary Report), 406.
- Dudgeon (L. S.) and Wilson (H. A. F.) On the Presence of Hæm-agglutinins, Hæmopsonins, and Hæmolysins in the Blood obtained from Infectious and Non-infectious Diseases in Man (Third Report), 67.
- Echidna, cell lamination of cortex of, and enumeration of fibres in cranial nerves (Schuster), 113.
- Edridge-Green (F. W.) The Relation of Light Perception to Colour Perception, 458.
- Electrification, opposite, produced by animal and vegetable life (Thornton), 638.
- Enzyme action, studies on. XIII.—Enzymes of the emulsin type (Armstrong and Horton), 349.
- Enzymic change, function of hormones in stimulating (Armstrong), 588.
- Fishes, caudal fin of (Whitehouse), 134.
- FitzGerald (M. P.) Preliminary Note on the Origin of the Hydrochloric Acid in the Gastric Tubules, 346.
- Formaldehyde in green plants, photochemical formation of (Schryver), 226.

- Fraser (M. T.) and Gardner (J. A.) The Origin and Destiny of Cholesterol in the Animal Organism. Part VII.—On the Quantity of Cholesterol and Cholesterol Esters in the Blood of Rabbits fed on Diets containing Varying Amounts of Cholesterol, 559.
- Galactose, fermentation of, by yeast and yeast-juice (Harden and Norris), 645.
- Gall-fly (*Neuroterus lenticularis*), gametogenesis of (Doncaster), 88.
- Gammarus pulex*, tone perception in (Cole), 391.
- Gardner (J. A.) See Fraser and Gardner.
- Gastric tubules, origin of the hydrochloric acid in (FitzGerald), 346 ; — ulcer, further observations on pathology of (Bolton), 233.
- Geikie, Sir A. Presidential Address, November 30, 1909, 151.
- Glossina palpalis* as carrier of *Trypanosoma vivax* (Bruce and others), 63 ; — natural food of (Bruce and others), 490.
- Growth, contributions to biochemistry of (Cramer and Pringle), 307.
- Haaland (M.) The Contrast in the Reactions to the Implantation of Cancer after the Inoculation of Living and Mechanically Disintegrated Cells, 293.
- Hæm-agglutinins, hæm-opsonins, and hæmolysins in blood from diseases in man (Dudgeon and Wilson), 67.
- Hæmolytic methods, recognition of individual by (Todd and White), 416.
- Haldane (J. S.) See Douglas and Haldane.
- Halliburton (W. D.) See Mott, Schuster, and Halliburton.
- Hamerton (A. E.) See Bruce (Sir D.) and others.
- Harden (A.) and Norris (R. V.) The Fermentation of Galactose by Yeast and Yeast-juice (Preliminary Communication), 645.
- Harden (A.) and Young (W. J.) The Alcoholic Ferment of Yeast-juice. Part V.—The Function of Phosphates in Alcoholic Fermentation, 321.
- Hormones, function of, in stimulating enzymic change (Armstrong), 588.
- Hort (E. C.) Autotoxæmia and Infection, 529.
- Horton (E.) See Armstrong (H. E.) and Horton.
- Hydrochloric acid in gastric tubules, origin of (FitzGerald), 346.
- Hydrocyanic acid in tissues, new method for quantitative estimation (Waller), 574.
- Klebs (G.) Alterations in the Development and Forms of Plants as a Result of Environment (Croonian Lecture), 547.
- Leaves, carbon dioxide assimilation in (Thoday), 1.
- Light perception, relation of, to colour perception (Edridge-Green), 458.
- Lignite of Bovey Tracey (Reid), 650.
- Lungs, causes of absorption of oxygen by (Douglas and Haldane), 331.
- Macallum (A. B.) The Inorganic Composition of the Blood in Vertebrates and Invertebrates, and its Origin, 602.
- Mackie (F. P.) See Bruce (Sir D.) and others.
- Magnetic field, physiological effect of an alternating (Thompson), 396.
- Malignant new growths, relative sizes of organs of rats, etc., bearing (Medigreceanu), 286 ; — homogeneity of resistance to implantation of (Bashford and Russell), 298 ; — nitrogen metabolism of rats bearing (Cramer and Pringle), 307.
- Marmoset, cortical lamination and localisation in brain of (Mott and others), 124.
- Medals, award of, for 1909, 165.
- Medigreceanu (F.) On the Relative Size of the Organs of Rats and Mice bearing Malignant New Growths, 286.

- Metabolism, total nitrogen, of rats bearing malignant new growths (Cramer and Pringle), 307.
- Metals, germicidal action of, and relation to production of peroxide of hydrogen (Rankin), 78.
- Minchin (E. A.) and Thomson (J. D.) The Transmission of *Trypanosoma lewisi* by the Rat-flea (*Ceratophyllus fasciatus*). Preliminary communication, 273.
- Mott (F. W.), Schuster (E.), and Halliburton (W. D.) Cortical Lamination and Localisation in the Brain of the Marmoset, 124.
- "Muhinyo," a disease of natives in Uganda (Bruce and others), 485.
- Muscle, action of nicotine, etc., on (Veley and Waller), 333 ; — rate of action of drugs on, as function of temperature (Veley and Waller), 205.
- Nicholls (G. E.) See Dendy and Nicholls.
- Nicotine and other pyridine bases, action of, upon muscle (Veley and Waller), 333.
- Nitrogen assimilation by certain bacteria in soil (Bottomley), 627.
- Norris (R. V.) See Harden and Norris.
- Obituary notices :—
- Bridge (T. W.), vii.
- Dallinger (W. H.), iv.
- Pflüger (E. F. W.), i.
- Osmotic effects, origin of, III (Armstrong), 588.
- Panton (P. N.) See Dudgeon, Panton, and Wilson.
- Pflüger (E. F. W.) Obituary notice of, i.
- Phagocytosis, influence of bacterial endotoxins on (Dudgeon, Panton, and Wilson), 406.
- Plants, alteration in development and forms of, as a result of environment (Klebs), 547.
- Precipitin interactions, weight of precipitate obtainable in (Chapman), 398.
- Pringle (H.) See Cramer and Pringle.
- Rankin (A. C.) The Germicidal Action of Metals and its Relation to the Production of Peroxide of Hydrogen, 78.
- Ray (W.) See Dreyer and Ray.
- Reid (C. and E. M.) The Lignite of Bovey Tracey, 650.
- Reissner's fibre, distribution in vertebrate series, and function (Dendy and Nicholls), 515.
- Ross (R.) and Thomson (D.) A Case of Sleeping Sickness studied by Precise Enumerative Methods : Regular Periodical Increase of the Parasites disclosed, 411.
- Russell (B. R. G.) See Bashford and Russell.
- Schryver (S. B.) The Photochemical Formation of Formaldehyde in Green Plants, 226.
- Schuster (E.) Preliminary Note upon the Cell Lamination of the Cerebral Cortex of Echidna, with an Enumeration of the Fibres in the Cranial Nerves, 113 ; — see also Mott, Schuster, and Halliburton.
- Sherrington (C. S.) See Tozer and Sherrington.
- Sleeping sickness in Uganda—duration of infectivity of *Glossina* (Bruce and others), 56 ; — case of, studied by precise enumerative methods (Ross and Thomson), 411 ; — cattle as reservoir of virus of (Bruce and others), 480 ; — mechanical transmission of, by the tsetse fly (Bruce and others), 498.
- Soil, assimilation of nitrogen by bacteria in (Bottomley), 627.
- Sphenodon, pineal organs and adjacent parts of brain in (Dendy), 629.
- Stovaine and cocaine, comparative action of, on contractility of isolated muscle (Veley and Waller), 147.

- Sykes (M. G.) The Anatomy and Morphology of the Leaves and Inflorescences of *Welwitschia mirabilis*, 625.
- Tetrachlorethane and trichlorethylene, physical and physiological properties of (Veley), 217.
- Theobromine and caffeine, comparative toxicity of (Veley and Waller), 568.
- Thoday (D.) Experimental Researches on Vegetable Assimilation and Respiration. V.—A Critical Examination of Sachs' Method for using Increase of Dry Weight as a Measure of Carbon Dioxide Assimilation in Leaves, 1; — Experimental Researches on Vegetable Assimilation and Respiration. VI.—Some Experiments on Assimilation in the Open Air, 421.
- Thompson (F. D.) The Thyroid and Parathyroid Glands throughout Vertebrates, 389.
- Thompson (S. P.) A Physiological Effect of an Alternating Magnetic Field, 396.
- Thomson (D.) See Ross and Thomson.
- Thomson (J. D.) See Minchin and Thomson.
- Thomson (J. D.) and Cushny (A. R.) On the Action of Antimony Compounds in Trypanosomiasis in Rats: being a Report to a Sub-Committee of the Tropical Diseases Committee of the Royal Society, 249.
- Thornton (W. M.) The Opposite Electrification produced by Animal and Vegetable Life, 638.
- Thyroid and parathyroid glands throughout vertebrates (Thompson), 389.
- Todd (C.) and White (R. G.) On the Recognition of the Individual by Hæmolytic Methods (Preliminary Communication), 416.
- Tone perception in *Gammarus pulex* (Cole), 391.
- Tozer (F. M.) and Sherrington (C. S.) Receptors and Afferents of the Third, Fourth, and Sixth Cranial Nerves, 450.
- Trypanosoma lewisi*, transmission of, by the rat-flea (Minchin and Thomson), 273.
- Trypanosoma vivax*, *Glossina palpalis* as carrier of (Bruce and others), 63.
- Trypanosome diseases of domestic animals in Uganda. I.—*Trypanosoma pecorum* (Bruce and others), 468.
- Trypanosomes, development of, in tsetse flies (Bruce and others), 368.
- Trypanosomiasis in rats, action of antimony compounds in (Thomson and Cushny), 249.
- Vegetable assimilation and respiration, experimental researches on (Thoday), 1, 421.
- Veley (V. H.) An Examination of the Physical and Physiological Properties of Tetrachlorethane and Trichlorethylene, 217.
- Veley (V. H.) and Waller (A. D.) On the Comparative Action of Stovaine and Cocaine as measured by their Direct Effect upon the Contractility of Isolated Muscle, 147; — Observations on the Rate of Action of Drugs (Alcohol, Chloroform, Quinine, Aconitine) upon Muscle as a Function of Temperature, 205; — The Action of Nicotine and other Pyridine Bases upon Muscle, 333; — On the Comparative Toxicity of Theobromine and Caffeine, as measured by their Direct Effect upon the Contractility of Isolated Muscle, 568.
- Vincent (Swale). The Chromophil Tissues and the Adrenal Medulla, 502.
- Waller (A. D.) The Action of Nicotine and other Pyridine Bases upon Muscle, 333; — A new Method for the Quantitative Estimation of Hydrocyanic Acid in Vegetable and Animal Tissues, 574; — See also Veley and Waller.
- Welwitschia mirabilis*, anatomy and morphology of (Sykes), 625.
- White (R. G.) See Todd and White.

Whitehouse (R. H.) The Caudal Fin of Fishes (Preliminary Paper), 134.
Wilson (H. A. F.) See Dudgeon and Wilson ; and Dudgeon, Panton, and Wilson.

Yeast and yeast-juice, fermentation of galactose by (Harden and Norris), 645.
Yeast-juice, alcoholic ferment of. Part V (Harden and Young), 321.
Young (W. J.) See Harden and Young.

END OF THE EIGHTY-SECOND VOLUME (SERIES B).
