

## INDEX TO VOL. XCVIII. (B)

- Adair (G. S.) A Critical Study of the Direct Method of Measuring the Osmotic Pressure of Hæmoglobin, 523; The Osmotic Pressure of Hæmoglobin in the Absence of Salts, 524.
- Adam (N. K.) and Jessop (G.) An Explanation of the so-called Intertraction Phenomenon between Solutions and the Molecular Significance of Negative Surface Tension, 206.
- Adams (D. R.) Investigation on the Crystalline Lens, 244.
- Amphibian Metamorphosis (Huxley), 113.
- Angus (T. C.) The Electrical Characteristics of an Arc Lamp (Direct Current) measured by Biological Effect, 400.
- Animal Posture (Croonian Lecture, Magnus), 339.
- Arc lamp, biological effect of electrical character of (Angus), 400.
- Armstrong (H. E.) Studies on Enzyme Action. XXIV.—The Oxidase Effect and the Phenomena of Oxidation in general: Carbonic Oxide, 202.
- Armstrong (R. R.) Studies on the Nature of the Immunity Reaction. I. An Experimental Study of Pneumococcal Immunity, 525; II. A Comparison of the Antigenic Properties of Sensitised and Raw Pneumococcal Vaccines, 545.
- Ballif (L.), Fulton (J. F.), and Liddell (E. G. T.) Observations on Spinal and Decerebrate Knee-Jerks, with Special Reference to their Inhibition by Simple Break-Shocks, 589.
- Blood sugar of fish under various conditions (McCormick and Macleod), 1.
- Bose (Sir J. C.) and Das (G. P.) Physiological and Anatomical Investigations on *Mimosa pudica*, 290.
- Brenchley (W. E.) and Thornton (H. G.) The Relation between the Development, &c., of the Nodules on *Vicia faba* as influenced by the Presence or Absence of Boron in the Nutrient Medium, 373.
- Buston (H. W.) See Schryver, Buston and Mukherjee.
- Cell-interior, hydrogen-ion concentration of (Needham), 259.
- Cholesterol metabolism in breast-fed infants (Fox and Gardner), 76.
- Croonian Lecture (Magnus), 339.
- Cytochrome, a respiratory pigment (Keilin), 312.
- Cytology of tar tumours (Ludford), 557.
- Das (G. P.) See Bose and Das.
- Drummond (J. C.) See Parkes and Drummond.
- Eggs, effect of low temperatures on hens' (Moran), 436.
- Eichholtz (F.) and Starling (E. H.) The Action of Inorganic Salts on the Secretion of the Isolated Kidney, 93.
- Emerson (S. A.) and Martin (L. C.) The Photometric Matching Field. II. The Effect of Peripheral Stimulation of the Retina on the Contrast Sensibility of the Fovea, 353.
- Enzyme action—the oxidase effect (Armstrong), 202.

- Epididymis, cell organs during secretion in (Ludford), 354.  
 Exercise, oxygen intake during, while breathing rich oxygen mixtures (Furusawa), 287.  
 Exercise, pulse rate and oxygen intake during recovery from (Lythgoe and Pereira), 468.
- Fox (F. W.) and Gardner (J. A.) The Origin and Destiny of Cholesterol in the Animal Organism. Part XIV.—The Cholesterol Metabolism in Normal Breast-fed Infants, 76.
- Fulton (J. F.) Fatigue and Plurisegmental Innervation of Individual Muscle Fibres, 493.  
 — and Liddell (E. G. T.) Observations on Ipsilateral Contraction and "Inhibitory" Rhythm, 214; Electrical Responses of Extensor Muscles during Postural (Myotatic) Contraction, 577.  
 — See also Ballif, Fulton and Liddell.
- Furusawa (K.) Muscular Exercise, Lactic Acid and the Supply and Utilisation of Oxygen. Part IX.—Muscular Activity and Carbohydrate Metabolism in the Normal Individual, 65; Muscular Exercise, Lactic Acid, and the Supply and Utilisation of Oxygen. Part X.—The Oxygen Intake during Exercise while Breathing Mixtures Rich in Oxygen, 287.
- Gardner (J. A.) See Fox and Gardner.
- Gladstone (R. J.) See Pickering and Gladstone.
- Hæmoglobin, osmotic pressure of (Adair), 523; in absence of salts, 524.  
 Hæmolysis, effect of blood serum on (Ponder), 484.
- Harris (D. T.) Studies on the Biological Action of Light, 171.
- Hemsley (W. B.), obituary notice of, i.
- Herdman (Sir W. A.), obituary notice of, x.
- Hill (A. V.) The Surface-Tension Theory of Muscular Contraction, 506.
- Huxley (J. S.) Studies on Amphibian Metamorphosis.—II, 113.
- Immunity reaction, nature of (Armstrong), 525, 545.
- Intertraction phenomenon between solutions (Adam and Jessop), 206.
- Ipsilateral contraction and inhibitory rhythm (Fulton and Liddell), 214.
- Jessop (G.) See Adam and Jessop.
- Keilin (D.) On Cytochrome, a Respiratory Pigment, Common to Animals, Yeast and Higher Plants, 312.
- Kidney, action of salts on secretion of (Eichholtz and Starling), 93.
- Kidston (R.), obituary notice of, xiv.
- Klein (E.), obituary notice of, xxv.
- Knee-jerks, spinal and decerebrate (Ballif, Fulton and Liddell), 589.
- Liddell (E. G. T.) See Ballif, Fulton and Liddell, and Fulton and Liddell.
- Light, biological action of (Harris), 171.
- Ludford (R. J.) Cell Organs during Secretion in the Epididymis, 354; Nuclear Activity in Tissue Cultures, 457; The Cytology of Tar Tumours, 557.
- Lythgoe (R. J.) and Pereira (J. R.) Muscular Exercise, Lactic Acid and the Supply and Utilisation of Oxygen. Part XI.—Pulse Rate and Oxygen Intake during the Early Stages of Recovery from Severe Exercise, 468.
- McCormick (N. A.) and Macleod (J. J. R.) The Effect on the Blood Sugar of Fish of Various Conditions, including Removal of the Principal Islets (Isletectomy), 1.

- Macleod (J. J. R.) See McCormick and Macleod.
- Magnus (R.) Croonian Lecture.—Animal Posture, 339.
- Martin (L. C.) See Emerson and Martin.
- Meiotic phase in Triton (Walker), 29.
- Mimosa, conduction of excitation in leaf of (Snow), 188.
- Mimosa pudica, physiological investigations on (Bose and Das), 290.
- Moran (T.) The Effect of Low Temperatures on Hens' Eggs, 436.
- Mukherjee (D. H.) See Schryver, Buston and Mukherjee.
- Muscle fibres, fatigue and plurisegmental innervation of (Fulton), 493.
- Muscles, electrical responses of extensor, during contraction (Fulton and Liddell), 577.
- Muscular activity and carbohydrate metabolism (Furusawa), 65.
- Muscular contraction, surface-tension theory of (Hill), 506.
- Nath (V.) Cell Inclusions in the Oogenesis of Scorpions, 44.
- Needham (J. and D. M.) The Hydrogen-Ion Concentration and the Oxidation-Reduction Potential of the Cell-Interior: a Micro-Injection Study, 259.
- Nuclear activity in tissue cultures (Ludford), 457.
- Obituary notices of Fellows deceased:—
- W. B. Hemsley, i.
- Sir W. A. Herdman, x.
- R. Kidston, xiv.
- H. Woodward, xxiii.
- E. E. Klein, xxv.
- Oogenesis of scorpions (Nath), 44.
- Oxygen intake while breathing concentrated oxygen mixtures (Pereira), 480.
- Parkes (A. S.) The Effects on Fertility and the Sex Ratio of Sub-sterility Exposures to X-Rays, 415.
- Parkes (A. S.) and Drummond (J. C.) The Effect of Vitamin B Deficiency on Reproduction, 147.
- Pereira (J. R.) Muscular Exercise, Lactic Acid, and the Supply and Utilisation of Oxygen.—Part XII. A Note on the Technique of Determining the Resting Oxygen Intake while breathing Concentrated Oxygen Mixtures, 480.—See also, Lythgoe and Pereira.
- Pickering (J. W.) and Gladstone (R. J.) The Development of Blood Plasma.—I. The Genesis of Coagulable Material in Embryo Chicks, 516.
- Ponder (E.) The Inhibitory Effect of Blood Serum on Hæmolysis.—II, 484.
- Proteins, product of hydrolysis of, hitherto undescribed (Schryver and others), 58.
- Retina, peripheral stimulation of, effect on sensibility of fovea (Emerson and Martin), 353.
- Schryver (S. B.), Buston (H. W.) and Mukherjee (D. H.) The Isolation of a Product of Hydrolysis of the Proteins hitherto undescribed, 58.
- Scorpions, cell inclusions in the oogenesis of (Nath), 44.
- Snow (R.) Conduction of Excitation in the Leaf of *Mimosa Spegazzinii*, 188.
- Starling (E. H.) See Eichholtz and Starling.
- Surface tension, molecular significance of negative (Adam and Jessop), 206.
