Correction to ‘The influence of social norms on the dynamics of vaccinating behaviour for paediatric infectious diseases’

Tamer Oraby, Vivek Thampi and Chris T. Bauch

The unit of the parameter \( \kappa \) throughout the paper [1] has been mistakenly typed as \( \text{years}^{-1} \). The correct unit of the parameter \( \kappa \) must be \( \text{days}^{-1} \). This change will not affect the results in the paper as other parameters were appropriately transformed.
